Hazardous Materials Awareness and Operations

[continue reading](#)

A fire fighter's ability to recognize an incident including hazardous materials or weapons of mass destruction (WMD) is critical. THE 3RD Edition of Hazardous Materials Awareness and Operations will provide fire fighters and 1st responders with these abilities and enable them to maintain themselves and others safe while mitigating these possibly deadly incidents. They must possess the knowledge required to identify the presence of hazardous materials and WMD, and also have an understanding of what their part is at the response plan. A detailed crosswalk in addition has been developed to assist you correlate the JPR's from the 2018 Edition of NFPA 472: Regular for Competence of Responders to Hazardous Components/Weapons of Mass Destruction Incidents that exist as an appendix. Hazardous Materials Awareness and Operations, Third Edition has been completely updated and correlated to meet up and exceed the competencies in the newly released 2017 Edition of NFPA 1072: Standard for Hazardous Materials/Weapons of Mass Destruction Emergency Response Personnel Professional Qualifications. The structure of the Third Edition in addition has been enhanced to support your exact needs with three unique sections: The Awareness section encompasses two chapters for awareness level personnel The Operations section covers five chapters for operational responders The Mission Specific section concludes with eight chapters
