Milady has evolved for more than 85 years to become what it really is today, the cornerstone of beauty and wellness education. We have become thrilled and proud to announce the latest edition of Milady Standard Cosmetology, the most commonly used resource in cosmetology education. For the brand new edition, superstar stylist Ted Gibson offered as Creative Director on the project. For decades since our 1st textbook published, it has been our commitment to provide students with the building blocks in the principles and skills had a need to master the technology and art of cosmetology, and with this most recent version that commitment has not waivered. The effect is a brilliant new style with over 750 brand-new photos and a striking design, providing a visually stunning resource to engage today's learner. During our intensive peer review and development process, we were asked for a source that placed focus on essential content necessary for licensure success, and we feel assured that we delivered. We also recruited a team of twelve authors, produced up of top experts and educators in the market, to provide the most current information on principles and techniques. Milady Regular Cosmetology will still be a way to obtain education that college students can count on, not only while in school, but throughout their careers.
