Milady Standard Barbering, 6th edition, continues to be the leading reference in barbering education, providing the foundational concepts and techniques needed to be successful while in school, move the licensing examination, and launch yourself into a thriving career. Incorporating new pictures, artwork and overall layout, the appearance and feel of the edition has been changed, resulting in a smooth and clean style. As the only textbook that provides an integrated group of assets to enhance the training process, this new edition continues its long background of setting the typical in barbering education. Furthermore, classic techniques have already been paired with modern looks to have success both while in college and beyond to work. Content has been updated within each chapter with a significant concentrate on the procedures, contamination control, life skills and business chapters, just to name a few.
