Lot of material! Although I rented the publication for a good deal, there was a lot of hand writing and underlining in it. I assume you can say it distracted me but I shouldn't be complaining when I acquired the book for therefore cheap! On the other hand, the book was extremely proficient at teaching you step by step about nutrition! Three Stars just a little beaten up but still good Great seller! Four Stars Clean and well kept. Five Stars GREAT BOOK, GOOD SHAPE Four Stars rented this pertaining to nutrition class Five Stars Absolutely, and doing well in my class! Delivered on time. Five Stars Great book I love what sort of information is definitely organized and the layout. No issues. One Star Terrible book. Makes a lot of promises and statements that aren't true.
