It's ok. This book has many errors, and while it may be the very best (only?) basic esthetic text for new students, it is often confusing. I've a Masters' degree in Research and in Arts, so it is not like I'm new to school (changing careers), but, some of the chapters keep me scratching my head. I have to get out my old science and chemistry texts. Chapters on chemistry, energy and physiology are large topics condensed to a few pages and it feels as though someone who doesn't know these topics thoroughly is certainly paraphrasing from another text; I'm often unsure what they're trying to say. Bought this for my girlfriend and she seems pleased with it. Bought this for my girlfriend and she seems happy with it. The school wanted to sell us the book for 70% even more. And certainly, the mistakes need to be corrected.. This was a great value for my daughter who's studying to be . It's not awful, there's a lot of good information, nonetheless it needs improvement. Nice quality Five Stars Was precisely what I needed. This was a great value for my daughter who's studying to be an Esthetician. I understand it's an intro, but I think the basics could possibly be addressed more obviously. Thank you for saving us the \$\$..When I read this book, I have to have my laptop and my other books handy. You need to be cautious and realize it's limited to your phone/tablet not really computer. The only reason I'm giving it 4 stars is because it can't be used on more platforms. Nice quality My child is taking this course. She likes using this book.. Very Clear & Liked this book and would suggest this for almost all Estheticians for your studies. You'll love it! Great Start for Studies Great book for class review, for some States exams!... Good Good Llego antes de lo esperado El artículo Es igual a como lo describen Awesome book but terrible price! Thanks. The book is great, no question. This is an educational reserve, one that I WANT for college and I acquired a scholarship and it is a hardship for me personally and for many individuals that want this, it should NOT be so costly. There is NO reason why accommodations and also the used ought to be over \$40 and some of these go up to \$666 ??? Great ? Got this for esty college.. Concise Readable and clear on directions!!
