What the author tells us in this interesting book seemed to fill up some gaps in my own spiritual beliefs. Anderson and our creator. Wow is usually that a weird thought I thought to myself. S. The Religious Skeptics Bible I first read this book 30 years back. I find God in nature a lot more than I ever found Him in a church. Well inside I was disconnected from God and I produced cancer tumor to exit this realm. That was a sin per the Baptist church laws and regulations. Consequently I was a sinner without wish of God loving me but just punishing me. I went through my childhood, teenage years into my late 30s with a center that sensed that everything that occurred bad was God punishing me. I utilized to look into the mirror and speak to God and beg for him to forgive me but sensed deep in my heart I was doomed for Hell! When the breasts malignancy happened I was 40. I saw this book on my friends desk and ask about any of it. She said I should read it and I did. Wow! If we are not happy not balanced we just dont realize we create what we place our thoughts to. Your day of my surgery I woke up with a believed that the masses were gone and they no more served me. What a miracle. This book changed my entire life! Could that be feasible? A must read to change your old patterns. Great reserve!. Everything that we are lead to believe that brings us joy per our society. By enough time I was 5 I knew I would hell per my church because I enjoyed gymnastics and dancing. I did just like the 51% positive and the meditations at the end of every chapter were okay. This is why we have all of our complications. I had a secret death wish. I have to come to trust many people do plus they dont realize it. If you were to inform others they might deny this. It really is a desire of unsatisfactory existence. Weird right. Our thoughts are therefore powerful! We are effective beings & most of the churches of our world teach that we have no power. We cannot talk directly to God that we need to earn our method in the Kingdom. Therefore not true!!!! Took far too long to get to the point I like this publication for the first two chapters and then it just waffles and got very repetitive. This takes away our power! Takes away our hope! This is why we have a world of depression. Awaken world read this publication and many other books. One of my preferred saying back in your day was "Life is a bitch then you die". That is why we have an environment of medication addicts. Find people like myself who can guide you to your wholeness. I really like it. I was diagnosed with breast malignancy. It helped me get through a challenging stage in my own life. S. Love this book, We kinda got the Secret but this publication explains it so much better. It became my bible for many years. This is actually the basis of most of the brand new wave of visualization methods that have become part of our modern lifestyle. but that was about it. friends, relatives and acquaintances over the years who were dropped in a spiritual feeling - individuals who had determined that formal religions had been so flawed and riddled with inaccuracies and untruths that they had switched their back on all religious concepts. This reserve and the principles therein, for many of these, gave them a feeling that there was something higher than themselves and that they were apart of. This last copy has been purchased since it has been lacking from my bedside table for too long. The Only Book YOU WILL NEED On Law of Attraction Before there is Abraham and THE TRICK, there is Three Magic Words, a complete program for understanding and achieving using the Laws of the Universe. In the event that you loved the Bible, you'll like Three Magic Terms and find it a far more updated practical companion information for applying this favorite tome to true to life.. I have recently heard that "The Secret" was actually written based on Three Magic Phrases (making perfect sense if you ask me because of the story about how she acquired the reserve), except that the writer left out the facet of the effort and focus.. Nature is usually God's energy in it's pure and basic state without all the crap. I had the great job the amount of money, the husband, the child...I have bought twelve or more copies over the last 15 years and We continue steadily to purchase new ones to give away, to displace ones that degrade and to always have extra copies readily available. Right now I am tacking the biggest manifestation program I've ever had and although I've got to start over a couple of times, there is absolutely no system much better than U. over 11 years back. Andersen's Three Magic Phrases as the core program for manifesting whatever miracle, change, or life-style becomes your dream. GREAT BOOK... Religion has it; Love this reserve. I listen to Kelly Howel Meditation CDs.. Every 50 years or so someone re-discovers the truth and writes a publication about it and others capitalize onto it. This is the reserve she based her meditations on. "Universal Brain Meditation". It requires on an extremely spiritual viewpoint of life without all the religious methods, competition, control, profit seeking, rule making, cult behaviors you can find in religions these days. It enlightens the mind and lets us understand that we all have been connected to this Universal

source energy, God. You can NOT place God in a Package regardless of how hard you try. Buy it! Its place in the globe, but if your religion begins to disconnect you from God rather than making you feel nearer to Him...It's time to transformation directions. I did so not have a good relationship with God due to the Baptist church up getting. This is actually the one for my generation. Herd it said: "I would rather be on a boat angling and considering God. enjoying the wonder all around me, than sitting in a church trying desperately to discover God and wishing I was fishing". This book offers an increased level of recognition and thinks beyond the box. Every time you consider God and try to make a religion out of him, issues go haywire. No Children's book that We wouldn't recommend. The 3 magic word are so important I think that this is how to check out life book. It was so thought-provoking & eye-opening. Have medical issues read this book. You are already whole and complete and cherished like no additional by our creator no matter what you have done said or been or getting. I would totally recommend it. I visited medical operation to find that one mass was completely gone and the second mass disappeared right in front of the Cosmetic surgeon and the nurses. The font is SO small, I can't read this book, not even with my reading glasses! Font Too Small to Read! I am SO disappointed. I have never seen a book with such little type. The moral of the story was I did so everything that I was told to do by our society. Life-changer! This book was way ahead of its time. By the end of the publication he made the outcome so depressing, I acquired no desire to proceed there. Might ruffle a few feathers but a thought provoking read. Yes Love this reserve ! Many queries, that hitherto I hardly ever been able to find answers compared to that were at all believable, began to seem sensible. I get it!! This reserve is if you are trying to locate a better path in life Everyone copied his theory he's the Original Read this reserve every self help guru copied his theory from 50+ years back Great book Read all the way to find away the truth... and made living in my conscious existence so much happier compared to the non existent nirvana he thinks most of us want. It was my top secret desire to keep.. A customer gave this book if you ask me in 1997 in a time of crisis and I was able to manifest a complete transformation in my life in just a matter of a short couple of months it took me to understand it (that's, getting a work I needed, offering my house, extra cash, security, moving across the country and having it payed for, and more great features than I can convey) but I still find that doing the 12 affirmations every day and using the "30 Day Mental Diet" (no negative thoughts) is the easiest way to manifest whatever miracle I need from money and it is NOT "easy" as The Secret and others would pretend, it's the hardest work there is, nonetheless it is the right work, the proper tool for the work. Perhaps there were as much as 10 copies of the reserve bought by me and directed at 'seekers';
