There is nothing beats validation and "Tapping the energy Within" does that with such grace it is unbelievable. A great read if you are feeling trim off from your source of power or looking for something more alive. This is definitely sure to truly get you on track for a power-loaded life. Smile... Empowering! it is so wonderful to know that when a company claims that their item is in a certain condition and then whenever a person buys the product in fact it is in the wonderful condition that was stated, is fantastic. The altar also takes on a focal point inside our lives (my children) as we continue the journey and I love just feeling a sense of oneness that before, I had overlooked. I would recommend to all or any who need just a little reassurance that they are on your path because of their Spiritual walk. so was the CD that was included with the book. The author takes me from a level of self to an even of spirit and I stay in awe as I see how truth is told to me every day. I love it so much that I've shared it with many relatives and close friends. I also like the delicate confirmation/conviction messages..I've owned a copy of your first publication of this book and must admit it has been a very significant component of my development, development and success on many amounts!!It is thus relevant to start to see the impact that one's Ancestors can have on both guiding one's lifestyle paths and offering protection for each person who honors them and includes them in their everyday activities both consciously and even without having to be aware that they are doing so simply by calling their brands etc.I have already been able to verify that completely and will embrace every possibility to thank those who have paved my path and now I embrace my lifestyle and beginnings with more pride and respect.Your inclusion of "What I UNDERSTAND Now" is very particular in keeping us attuned with your/our personal development and progress.The chapter on Altars once again is very significant therefore thank you for including it..!Mo dupe Ori Egun, ase.
