Excellent book. A love, I have not experienced but through this book. Vianna shares information on her approach to healing. On a cautionary take note regarding Theta Healing, I afterwards read a blog from a former Theta Healer that acquired some extensive what to say regarding not really much what happens to the Theta Healing recipient (which is usually good) but to the practitioner, which wasn't good. I recently learned that Vianna has been sued for fraud for lying about the condition she said she healed. Having not sorted out everything, I caution the reader. I understood deep inside we had been/are capable of so much more than we are conscious of. Therefore I'm still evaluating this modality. The book could have been about 1/2 as much pages. For me personally this book was amazing! This reserve taps into and teaches bout that capability. Research your facts before you dive in Lots of redundancy. It is not easy to do The book is excellent- need some background in healing techniques. This book can be an absolute will need to have for healers! That is that, and I must say i recommend it. which wasn't good. Anyone who's thinking about self-healing or curing of others should go through this book. Great Book for Healing! There is definitely some interesting information but just reading the publication one is extremely unlikely to accomplish Theta Healing if you don't can project yourself into the several planes that she describes. I especially enjoyed her description of how she clarifies beliefs to improve them. Research your facts before you dive in. Because of Vianna Stibal Theta Healing: Introducing a fantastic energy healing modality by Vianna Stibal is an amazing reserve and an absolute must have for people perforing theta helaling. It really is full of information and readable and to understand. It offers inspired me to understand further through a training. What all want is a connection to the Creator of most That's. Thank you Vianna Stibal.. It is not easy to perform, I really believe it is among those techniques that does take time in learning so as to eventually master. It would make me experience better if this had been an outright fraud, but I fear it's not.!.. everything makes perfect sense. After doing the procedure for myself, I understand it is incredibly powerful! YOUR BODY/MIND KNOWS HOW EXACTLY TO Gain access to A DEEPER SORT OF HEALING While we may think our bodies are merely the playground for battles fought by our health insurance to deny us insurance, there's a whole parallel universe of healing medicine based on the idea of body/mind energy, incredible as it might seem. Dependence on centering, much meditation daily, cleansing chakras, and finally giving it up to God/Higher Power/Lifestyle Giving Source! You can understand and the books explains the healing method .. A MUST HAVE! Informative book about Theta healing. It's easy to understand and the books explains the healing method for the novice. Excellent Book This is an excellent book! It's written extremely well! The purity and sincerity of what touch your heart and soul and open your brain to such an immense love. Caution advised. Many thanks!.! A great book Exactly what I needed Quackery Terrible pseudoscience that may harm those in need to have. Ranks ideal up there with anti-vax nonsense. It describes the theta healing up process for recovery and psychic reading+medical intuition, entities, the planes. Opened up a new world A friend introduced me personally to ThetaHealing and I slowly realized the potential. I felt good doing the exercises in the publication, but was not able to heal a foot condition. I have been doing Energy Healing for a while now and was naturally using a large amount of these techniques currently, but after scanning this reserve it has improved my capabilities 100 fold. With guidance form this book everybody can perform theta healing, great book spiritual book, amazing Great book and easy to use Great book and fantastic healing modality anybody can employ! Great service Great book, delivery was directly on time! Will definitely buy again. Great reserve condition!
