Excellent! I guess I'll begin by saying, I'm a man ... So you might wonder why I'm reading this book. And I can try to find methods to support her to get in her body, in which to stay her body, to maintain her power more. So she's "squaring the circle. Its easy to miss as its therefore embedded its transparent. Love loce like!". My wife recommended it and I must say I enjoyed this content. EVERY girl should read this reserve! I recall reading the author's first reserve 15 years ago it was? I came across the pink cover a bit frilly and annoying, to be honest. But I admired the composing and the result of the content on my girlfriend at the time. Now, fast forward a long time and my lifestyle is completely different, but I still find it impacted by the author's work. But once we started using pussy magic to draw the exact right visitors to our event (and I even invited the ladies on our team to learn the book and use their own pussy magic--yes, we are that kind of company), we only had 100 arrive, however the results were much better than if we had our regular percentages with 150 turning up. I believe Ms. Mama Gena, as she is called, grew up hearing her father read the Bible every Fri night, while getting abused by an older brother. A true care taker of females. An excellent and funny writer. A stand for things being different. Someone willing to take risks and put it on the line. This consists of celebrating sex and life with "her guy" or just as likely "guys" or "woman" or just as likely "women" however the case may become. A MUST READ FOR EVERY FEMALE! My husband and I founded our company 12 years back and also have built it to the multi-millions. We've given away hundreds of thousands to charity and love the work we're performing in the globe. I am presently CEO (although I just function 15-20 hours weekly) and it's easy for me to get stuck in the masculine--performing and driving and pressing-- rather than surrendering and permitting, slowing down and going to the silent place within to discover answers and to ask for Divine Support. WHEN I read this book, I tuned in to my Pussy and made decisions from there. The Result: Less stress, less work, more happiness, more love, additional money. I'm not really saying this is magical thinking, because we certainly have spent a considerable time in our lives developing ourselves personally and professionally to be able to have the life span we curently have.... It's also an in depth call with guidelines for a complete new sort of sisterhood, Sister Goddess Activism, women supporting one another in tapping into their powers to radiate pleasure. We would have an event where 150 people would arrive and we would earn around \$500k-600k in sales. Thats stating something. More than 50% of the people attending signed up for an archive breaking event of \$840,000 in sales. Before our next event, I found myself forgetting to use Pussy Magic and the benefits weren't nearly as good." And she tells in vivid detail of the years it has taken on her behalf to forge these searing encounters into a soul healing for herself and then right into a wellspring for leading a historic re-enacting of the salvation myth of Western spirituality: freedom from enslavement, inward in addition to outward. Results weren't nearly as good. Essentially, connecting with my Pussy through the exercises and stories in this book are ways to connect to the Divine Feminine. And my life often will go better and is simpler when I allow the Divine to run factors vs my ego. However the more money component was what truly blew me personally away (hate to utilize the masculine metaphor here, but can't find a better one right now). set aside times for allowing out anguish--crying, yelling, pounding pillows or whatever in the company of consoling goddess sisters. Amazing!
