Gain a fantastic Perspective on Aging Excellent read for anyone in the health care industry, baby boomers, generation Xer's and Millennials as well. I like the use of case research. The book itself can be a bit dry, but very helpful for a program I took on the subject. Quote as many people as you can - in the written text. My purchase This book, Aging and Mental Health is great for any Gerontology major/minor or even Psychology major/minor! I actually really enjoy reading it unlike various other text books for other classes! Happy with the book Item arrived in great condition and quickly. Its best and easy to understand Its best and easy to comprehend. Just by reading part one -Introduction, I acquired so excited about the wealth of the content. Good book for information. Not riveting reading for certain. This book can be eye misting at times, as you realizes that yes, a few of this is likely to eventually me(damn it). Five Stars Very helpful book Excellent Condistion Normally when I buy or rent a used book they are possibly written in or ripped, this book had none, I was extremely impressed with the problem. Its okay, its a textbook. I find the citations are bothersome and distracting. another textbook
