EVERYONE OUT OF EVERY WALK OF Existence NEEDS TO READ THIS WITH AN OPEN MIND AND Center! AMAZING! I've enjoyed most of Shirley's books and continue to sage as I age group. Their impact on her behalf life is easily apparent. It's very interesting and inspirational.. Oh to meet this girl at a publication signing or likely to a show would be like seeing a vintage friend after reading this remarkable book! EVERYONE from EVERY walk of life should OPEN your center and brain and let Shirley "come over" to tell you a thing or two (or 1,000). Just AMAZING! As usually, An Excellent browse ! Her ranch, which she describes so lovingly must be beautiful. Like her down to earth design, she is a pioneer in lots of areas and she isn't scared to share her sights. I respect that on many levels ! Interesting topics, opens your mind to many areas. because it allows you to "connect the dots" of your encounters since childhood on up into later years. storyteller I'd want to have the knowledge of talking to Shirley MacLaine in person or be a fly on the wall when she has conversations with the fascinating people she has access to. Reading her encounters is like meals for the soul.) Also to spend the night within an Egyptian tomb and Thomas Jefferson's home. How exciting that must be! You can easily see why she select her parents. Ageing is not for sissys, that's for sure. She has passed on to us, The Dear Reader, information that people could never receive on our very own. I admire her courage to try anything fresh and her conviction to speak her own truth. I have read all of Shirley's books !There is so much that the news headlines and government do not want us to learn and she is among the many that will explore and reveal.. I know I result from another planet. SHIRELY AT HER BEST. This Book make me feel like Shirley MacLaine is my best friend and she's sitting beside me telling everything! Sage-ing While Age-ing is simply as enjoyable with a lot of great information. Sage-ing While Age-in Sage-ing While Age-ing Shirley MacLaine is normally a constant way to obtain knowledge, and is able to write so that you experience that you will be learning with her. I feel that she should be producing copious notes as she will go here, there, and all over the place. For others interested reading her prior books is helpful, if you discover what she writes about rings a bell for you..She is always entertaining, disbursing some very good information. Not long ago i reread "From a Limb" and discovered something I missed those years ago. (It's been said you don't find or hear something until you are ready for it. I can readily believe that we simply don't observe what we are not ready to accept.'I've all of her books, and discover her existence fascinating. I really like Shirley's honest expressions of awe and the fact that she still questions herself. From her Hollywood lifestyle, to nutrition, her animals, the unknown, the known, EVERYTHING and MORE that you'll expect from this INCREDIBLE Celebrity and Legend is in this Publication!.. I particularly like how she will just pop in a thing that is out of context in whatever she actually is writing about. Sort of like getting present and actually listening to someone recount some experience that I can only dream of. However, I did not really value her including endorsements for herbalists and modern practitioners in this specific book. It really is inappropriate.. Some are unproven and must be used on faith. Everyone must decide these exact things for themselves. I understand a lot of gurus who have earning money as their main purpose for their innovations..! sharing her understanding and doing so in an exceedingly unique way. You either choose to trust Shirley or not really (about the spiritual/ET, etc.)I believe she holds back again a lot of what she has either experienced or is aware of. I've noticed it expressed that she actually is very well linked in who she knows. I'm gonna admit, I've enjoyed this colourful character and I believe I've real the vast majority of her books.She's a good article writer and knows how to do page turners. MacLaine will not mince terms or hold back on the TRUTHS she's discovered during a life well-lived and explored.She's an interesting website for those who haven't noticed it yet.. So far I've read-The

Camino and Above the Series: My Wild Oats Experience. Thanks for the info, it's greatly appreciated by us celebrity people. Forgive me as she hates being known as a "Legend", but she actually is! . I have some knowledge of MODERN ideas.. read the majority of Shirley Mac pc Lanes books and have enjoyed every one of them I have read most of Shirley Mac pc Lanes books and also have enjoyed every one of them...her courage to find answers to her questions and hold searching is very inspiring. Her interests have become similar to mine.(Maybe in my next lifetime... People, like me, who live in crowded, noisy places seek a location for tranquil reflection but are challenged to think it is. Hope there's more books to come The book's subject material has been pretty well covered by others.. The knowledge and information she has and shares in such a practical way that I've NEVER heard about is FASCINATING as SHE ACTUALLY IS HERSELF! THIS Publication IS FOR SHIRLEY FANS.. A frequent reader of Shirley MacLaine's writings I started reading Shirley MacLaine's books about her adventures many years ago.there is so much information Thanks Shirley ! (I specifically liked the life web metaphor from the Hindu writings in Bagavada Gita) She needs to keep advertisements out of her materials as it is definitely distracting from the various other subjects she actually is discussing. I cannot imagine exactly how she helps to keep so many details available so that she can write about her own personal experiences. Hooked on Shirley I've recently begun reading books by Shirley MacLaine and now I'm hooked.. Very enjoyable book Great, enjoyable book! There were a few parts that were a little hard to.follow but I'm sure when my consciousness is ready I will understand. I love her wit, and humor as she describes her journeys. I would love to sit with her and marvel at her discoveries, she is amazing! Five Stars Love the way she writes. This one hasn't made sense if you ask me and to connect through telepathy seems properly normal.I am planning on reading this book again. IT'S HER AT HER BEST; GREAT STORIES, SPELLBINDING. Three Stars BORING, LIKED ALIEN STUFF BETTER Four Stars Good book if you are interested in other dimensions. I've enjoyed this colorful character and I believe I've real almost . While she has many interesting thoughts in her publication.. I hope she has even more books forthcoming as I am looking forward to her to really rip loose. She's astute, traveled, iconic, authentic and extremely evolved. But this one... goes a bit out there and frankly, I have no idea what the heck she is talking about half enough time. Recommend this book ... especially to Seniors who consider themselves "truth-seekers" we're Seniors and both liked this book very much! It's like having a "re-boot" you will ever have. She is a feisty and interesting person. I especially enjoy the UFO info. Strongly suggested ! I confess that while her movie/TV career may be of prime interest for some, it's the additional aspects of her existence and what she knows in that arena is why I browse her books. Loved it!
