amberrae I think this book is great. The perspective that it is written from makes it simple for a kid to recognize with and getting the photos of the remedies and all the children is fantastic. I loved this book because it gives people of all age range a a little insight on Cystic Fibrosis. An informative children's reserve for CF children &. My 2yr. They aren't the only one in the globe who must do these treatments. I love this book This book is a wonderful tool to show your children with Cystic Fibrosis that they aren't alone. Children will love learning about others their age who do daily remedies, take many medicines, and have hospital remains, and hopefully experience not so alone within their battle. To be able to see each one of these children smiling is indeed beautiful. This has certainly helped him to not feel like he's the only one.

--Charla (A parent of a child with CF) Excellent book for small children with cystic fibrosis I've a 5 year aged with cystic fibrosis and he was so excited to see images of other children having to do what he does each day - use a vest, nebulizer, take enzymes, etc.. My son loves looking at this publication and has me examine it to him again and again. Such a sweet book. their families This picture book tells the story of one day in the life span of a little girl fighting Cystic Fibrosis.. He just kept repeating "exactly like me". It was written to be able to help these small but mighty few look for a feeling of commonality and discover fun photos of various other kids who are just like themselves. old boy has CF and absolutely loved looking at the photos of the other kids doing what he does daily. I appreciated reading it to him. Just what a wonderful learning device to have for kids and adults! Thanks
