## Brooklyn Street Style: The No-Rules Guide to Fashion

[continue reading](#)

Brooklyn style is eclectic, creative, and distinct from community to community. It's not regarding chasing labels. with more than 175 striking street-style photographs. s about dressing for true to life. Chapters distill what' This diverse crew of notable women in the design, fashion, food, and entertainment worlds contains style expert Mary Alice Stephenson, Women costume designer Jenn Rogien, Urban Bush Babes blogger Cipriana Quann, Sleigh Bells's singer/beauty-sector activist Alexis Krauss, and award-winning actor/playwright Eisa Davis. Brooklyn Street Design: The No-Rules Guide to Style explores what has made the borough a worldwide style mecca and presents style advice from a bunch of Brooklyn tastemakers. s occurring in the borough today—from the maker motion to eco-conscious fashion— It really is stylish on its own terms, and it' s Brooklyn Guide offers a curated report on the essential shops, marketplaces, restaurants, and bars. Full of suggestions for both guests and locals alike, the book'

I'm gonna need more stars ... Oh my!!!!!! Bravo!great fashion, wonderfully written and perfect photos... - and, of course, the fashion is just amazing. I must have 'read' it at least four moments since buying it - but I don't actually think I've actually read a chapter (or even two pages) properly. It's witty, sparkling, insightful, beautifully written - so very much care, believed and enthusiasm obviously went in to the writing of it - Great JOB authors! It's just like a huge big bag of sweeties, you can't visit just one... 10 stars if not really 15. Five Stars Thank you! Real Style An excellent read and an excellent reference, one that I will return to often. Thank you to the authors for sharing the stories beautiful real ladies and for the hundreds of sources shared in the guide.. I soooooo need to live in Brooklyn, and I would like to dress/appearance/be like so many of the women in this book, and I'm really, actually, really going to break out Brooklyn-style in my own life and wardrobe (despite the fact that I go on the other part of the globe!.. You read a captivating sentence or two then get seduced by an image, then lured aside by a reference, then page forward just like a demon to find inspiration for your outfit for your day, then lose your house, then set you back evaluate your own closet .) My favourite, preferred, FAVOURITE street style/fashionista book..and of course Brooklyn!!! Felt more like a long advertisement than other things, and the authors tagged using one picture of an older women. As an on and off Brooklyn resident, (currently off, this time once and for all probably) and a follower of Sacharow from the initial days of her profession with NY Magazine, I was excited to get my practical this books once I found out about it. More an extended advertisement than a true inquiry into design. Felt like an afterthought. Gave the reserve away after looking at it. Three Stars Not as good simply because Paris Style. The just problem I had was that there was only one picture, at the end of the reserve, of an older woman. The designs are fresh and comfortable and the tales are interesting. I really enjoyed this book I must say i enjoyed this book. I feel that the reserve is definitely geared toward very young ladies (with a a mature artist or two thrown set for great measure). For me personally, the book could have been much more interesting if the people in it were different ages and also body types. Liked it quite definitely.. Five Stars I really like this book. Without a pocketful of cash, most outfits completely unaffordable. I came across it to be meticulously and properly executed, why still keeping a great and creative advantage going. Just what a fantastic, fabulous, wonderful, inspirational book - except it's impossible to read!
