Very Useful A very useful chart which compiles information from many sources into one neat package. I don't recommend it for those who .Although AMA medicine isn't especially good at correcting many health problems, they are fairly proficient at diagnosing them..Then try some Supplement therapy along with or instead of drugs. The more serious your problem, the more thoroughly you should get this to decision and generally read just as much as you can about your unique health condition and the way the Vitamins and Herbal products function in the body. Being informed, is one of the best ways to stay healthy. In some instances, the drugs actually do work successfully. I received this supplement chart today fast delivery A+. A Great Go To!. Very nice guide and has a large amount of useful information onto it as a quick, go to reference. (Discover pic if dealing with fibroids also.)I'm using this for me, family, and friends. Helped me a whole lot with my college level nutrition/Bio class.. Great clarity Great listing - clear and readable Shipped Quick Love!) then region (hay fever, eczema, ...), and more.. 3 pages front and back. Full reference guide to vitamins and minerals. I really benefit from the whole listings on these, I was extremely surprised to come across listings in the end of what combinations of extra minerals/vitamin supplements you would need in what dosing to greatly help with certain circumstances and health problems, This is EXACTLY what We was wanting and could not find such an excellent comprehensive listing even when trying to google. I am very pleased. ... make your own and it could be better - duplicate and paste off the net You will make your own and it would be better - copy and paste off the web.. I looked at it once and knew everything on there - common sense in case you are into this stuff at all. Sorry I bought it. Very nice guide and has a large amount of useful information on . A lot of stuff that I never knew and I acquired these cause my children has been suffering a lot of pores and skin and allergy issues so we have decided to trim out the chemicals and other activities that aren't natural to better our health.. Excellent guide and has a large amount of useful information onto it mainly because a quick, go to reference. A whole lot of stuff that I under no circumstances knew and I acquired these cause my children has been struggling a lot of pores and skin and allergy issues therefore we have decided to cut out the chemicals and other things that aren't natural to try and better our health and wellness. These guides are handy to have as an instant guide, I reference all of them the time. Would recommend to anyone who requirements something quick to reference. Great information Useful to know what does what and where you can possible get it Five Stars Nice to have this reference.. So my recommendation is to go to your GP or other AMA specialist to comprehend the issue you are have prior to trying to repair it yourself. upon purchasing this chart in the picture it shows like it's one page when I received this chart today I was not disappointed I could not believe that it was three different charts front side and back a very excited to read it and find out what it has to offer I would for sure recommend this to anyone...Important thing is usually this chart is certainly worth the five dollars they are asking for it. I purchased this, because I'm dealing with fibroids and eczema. Hard to check out - rather than enough fine detail... Great quick reference !! thinking about buying this chart for my parents and sending it to them Very nice guide and includes a lot of useful information on .. Chart is comprehensive and quite handy. The suggestions are that of the publication I ordered from Amazon as well.. These guides are helpful to have as a quick guide, I reference all of them the time. Would recommend to anyone who needs something quick to reference. Great, very helpful chart Great, very useful chart! It offers many regions of help, easy to follow, organized according to ailment region (cardivascular, dermatitis, . After I was done with it, I exceeded it to another student and she also found it very helpful! Good information. Having said that, one should do additional

reading to confirm any suggestions about using Vitamins and Herbal products to treat a medical problem, as opinions in this area do vary... Good information. I don't recommend it for people who need to read large print. high quality and convenient Top quality and convenient!!! Thanks!! If you are searching for an instant reference, then this is for you ! Very pleased with this...it was much nicer than I expected !.. Was shipped earlier as i requested. Perfect for referencing for yourself and others. Wow, GREAT VITAMIN CHART GREAT VITAMIN CHART. Five Stars Great resource.
