My 9 yr. READ! My daughter is a fan of survival-type tv shows and outdoor activities. I thought she might such as this book simply for the "can you survive" aspect. I right now know she loves the whole choose your own adventure genre and has read this book no less than 15 times during the past month. Because the reader's decisions immediate parts of the story line, one reading of the reserve may be quite short because your alternatives didn't workout so well, while various other times the tale is pretty long. Five Stars Came as expected. I really love the concept, like the topics, but there are too many realistic fatal endings!! My grandson loves this series of books.! old girl loves this reserve!!! He and his close friends pass them around to each other to allow them to read every one of them!! Great to keep kids engaged in reading. Select your own ending, they would like to see after that happen. Four Stars Read these with my 8 year old boy, a little severe but he loves them My students enjoy it for supplemental reading This is a very interesting book! My learners really like it for supplemental reading. She is already requesting more of the IS IT POSSIBLE TO Survive books for Xmas, so I'm calling that one a win! Haven't examine it yet. Interactive stories! Would actually really like these books if they were even more optimistic and happy. Great.. will buy again Great.!will buy again!
