I shoulda listened I shoulda listened to reviewer CBGB. I'm lost and may not learn much.. Good if you prefer a general idea of how things are performed but I was expecting more. Waste of money. BEAUTIFUL COVER, HOWEVER, NOT EFFICIENT I expected much more. The publication is thin, and will not show all the measures for the locks cut.. Ditto everything in that review. I am a housewife. The locks division for the cuts does not look great. She certainly needed this book. Beautiful cover but not effective. I am so sorry, but this is exactly what I think. Not enough time in hair college to understand all this. Wife is going to school to accomplish hair. Well well worth the amount of money and a book you'll use over and over. Five Stars THIS WAS A GIFT FOR MY GRANDDAUGHTER, SHE JUST FINISHED HER COURSES AND REALLY LIKES THESE . It's nice. Just like the spiral bound. Thanks Milady Haircutting Purchased as supplement to Milady's textual content book. We am a housewife. I learn a lot from . No photos to show how to slice the hair on the back and nape area. Not enough descriptive details for me personally to fully execute most of the styles. I believe this book was not manufactured in US. I learn a whole lot from the book. Right now I understand what are the options I can do on my locks. Miladt I am not a beautician but wanted a simple explanation plus some pictures for a brief hair cut - this was a shear waste of money and time Five Stars very nice Great buy! Provides more detail for simple cuts. I could had use this cash that I payed for this book to get another mannequin head to practice hair trim using YOU TUBE lessons.
