I actually had been eyeballing the original book for a long time, and was considering buying for one of my groomsmen presents. Some books are simply throwup, you merely get so uninterested in big unneeded terms and circular logic stating a similar thing 12 various ways.. Packaging is great. It includes 2 books and 6 coasters in a good cigar type box that is cardboard. Among the coasters was torn up... Decided I'd buy simply 1 set and discover what I believed. I don't really treatment, they aren't anything too great, but will end up being descent for my office or wherever. Manhood needs work like love does" Five Stars Great for something special. I after that found I could buy the collection for a bit more. This guy has some get to the point style of writing. Nic, Belgium Passed my expectations! Before I begin, i want to say that I have wished to purchase it because the package graced my eyes. The container set makes an ideal gift for a hubby, a father, or a young man who's going off to college. I immediately read and treasured all the coasters. I have the highest expect the latter two who themselves still seek the very best good of options, one having come back from the deep dark fringes. I didn't discover it until I purchased this collection. "Manvotionals" I have only been reading one a day time since I've received it to fully grasp each access. There never seems to be more than enough space. The point of this book is never to become some beer guzzling bubba "guy", but to take responsibility for your daily life and to strive to possess certain traits which have been lost in today's society. Unfortunately Amazon does not allow warning various other consumers of poor retailers so I indicate making sure to consider one that is reputable. This has been among my best purchases previously year by far. If you are thinking about postponing this purchase for some time, usually do not. I regret all the time that I did so not own this. Nice Product! Being truly a fan of AoM I'm very little of a reader, because it's hard for me personally to discover a book I really enjoy. Fun and interesting read. Love the cigar box it comes in. Makes it perfect for a gift. This wonderful set can be an excursion into the artwork of being a guy. to whomever has contributed speeches, poems, writings, to a mans soul. I'm glad to discover that some cares to uphold the custom of manliness. The books are an inspirational manuals to man-living, and touches on topic such as exercise, hobbies, honor, friendships, and finance. A few of the lessons have already been lost over the years. If it generally does not interest you, then don't read that component.. I've started taking martial arts, working out, and creating.. The package set looks like a vintage cigar box externally, but inside you obtain two manuals: One filled with all the classic abilities

and mannerisms for the modern gentleman and the other filled with poems and literature evaluating the virtues of true manliness. Also several coasters filled with famous estimates from virtuos men like Teddy Roosevelt and Abraham Lincoln. When it arrived I ripped off the plastic material wrap and got straight into it. I liked reading the abilities book a lot more than the Manvotionals, but the Manvotoinals books taught me a lot more! Take a look, mates!.. .. The Art of Manliness Container Set The Art of Manliness Collection can not be any more classic and manly than it is now. Manliness is truly a lost art. Bought it 2x. 1st one as something special for an excellent friend, 2nd bought one for myself! Great books Nice presentation because it's hard for me to find a book I really enjoy. Nice product. Being a enthusiast of AoM, I've been wanting this for some time. The first gifting of the was to a teen for whom moral intervention was far too late apparently. I especially enjoyed "Classic Skills and Way for the present day Man." Learned a lot! It took me some time to read both books, nonetheless it was really worth it! If you like to bring back again the skills and virtues of traditional men back into the modern age group and unleash the real power of the man - I recommend this box set. Read it, mark it up, then buy second copies for the younger pre-manhood guys. No coasters received. I got both books and cigar box but there were no coasters with the buy. I'm think on returning it therefore i can get my money back or have a reorder, I've looked forwards to the sense I read the first book but we'll find what happens.including love and respect for the ladies in our lives. General, it's an excellent buy! This is my thirteenth purchase of the box. The oldest I have gifted was 19 who had no actual guys living a life example for him. I usually inscribe the inside surfaceS of the package, and the first few blank webpages of each reserve. The power of each piece in "Manvotionals" amazes me. They're both great books. The next gifting was well received into an actively well formed conscience. The thirteenth container produced a resounding impression in the one who significantly respects the giver having no bloodstream or extended family relation having had minimal face2face conversations. I read "Skills" in about three hours. Ideally that is gifted 9 to 13 depending on moral maturity. Boys, teens, and adults you need to reminded "not all adult males are men. I browse the preface and 1st few sections in the ManvotationalS therefore far have really enjoyed the book..
