Very pretty book with mostly doable hair styles I struggled with this before purchasing it. Great hairstyles, easy to check out instructions, step by step images. I couldn't tell if I was wasting my money or not. I could prop it up to be able to read while carrying out my hair therefore i can follow the step-by-step instructions.. About 50 % are easy to do yourself and the spouse I'd either need intensive practice on or would need a second person to do. This was an excellent beginners' reserve for me. I didn't possess any trouble following a instructions on the hairstyles I've tried so far. If you can french braid your own hair, you're miles ahead of me, which is really the largest part I have a problem with on my own. The reason I ultimately finished up buying the book is that I love having a physical format to reference while trying to do my hair. I'm weirdly impatient with video clips and simply prefer being given step-by-step guidelines. While I'm still a little bit on the fence, I don't believe it was a waste. I've a smart phone that I use extensively as well but sometimes the photos are hard to read and when both of your hands are occupied, swiping remaining can be hard. It's modern and smartly designed. :-)) I have tired every one of them and have some new favorites. Love this book Love this publication. I have already been a follower of missysue.com for a long period and was excited when I actually saw she put this book out. This is a great addition to anyone's hair program. You can usually find new hairstyles on-line despite having how tos. There are also these hairstyles on the internet. Way to go Melissa Cook! unattractive regular styles; Feminine is back Gave this as something special for my niece and she is now able to tackle braids in less than 10 minutes! Amazing to give as a gift or keep as your very own reference for that appear of femininity and sophistication. love it. So many hairstyles to pick from.. love it. In any case, I am pleased with my purchase and would recommend it to a pal who likes to try new factors with her hair. This was a great beginners' book for me I have very long hair and know nothing at all about what to do with it. However, the images are actually helpful as are the guidelines. The illustrations and instructions as great! The illustrations and guidelines as great Bought this as a gift for our child, and she actually is looking forward to trying the different designs with her beautiful hair. and she is looking towards trying the different styles with her beautiful hair. Five Stars A lot of great designs for kids. Great resource for people into hairdos! Cannot wait to order it. Prematurily . to tell however the girls in my own life will be trying out all of the hairstyles quickly.98 to come back it! Have nothing bad to say about this book at all. Several of these styles are variations on one another, . These designs are super neat even though not all of these are easy to accomplish, especially by yourself, a lot of them are.. Several of these styles are variations using one another, so there aren't really 35 hairstyles. There are only 4-5that I can perform on my somewhat-long, layered hair. nothing new here waste of money (I had to pay \$4. It is ok if you want a few styles Disliked hardly any styles to chose from Nice book There are some guidelines and it's nice to get a really difficult cover book to refer to.);! nothing new right here; even the final photos of completed designs look messy
