No one thinks it could happen to them, but Us citizens are 40 times more likely to end up being defrauded than to have their cars stolen or their homes burgled. The first rung on the ladder to combating fraud can be to understand it. Con artists ruin people financially and emotionally, leaving within their wake a trail of destruction, broken hearts, and deflated dreams. The book goes behind the moments of real-world downsides to look at the logistics and psychology that enable scams to achieve success. Why are they effective? The next thing is to take action. How do we protect ourselves and our families? The Con: How Scams Function, Why You're Vulnerable, and How to Protect Yourself informs and engages with available stories of ordinary folks from all walks of lifestyle thrown into unexpected and disorienting circumstances. What do scams appear to be? Once visitors have gained a apparent idea of what scams appear and appear to be and learned simple strategies to reduce personal risk, protecting themselves will be just as instinctive as gaining a chair belt. The goal is to help people understand and acknowledge deception, and in the same way that they avoid other potentially dangerous situations, take a detour.
