It really is sadly true that it is not always easy to fall asleep. though good luck reading very significantly on any one evening. With a pillowy case wrap, stultifying illustrations, and webpages of sheep to count, this giftable godsend for the under-rested features a large number of snoozy short texts, including "The Movement of Sand Dunes," "The Administrative Bureaucracy of the Byzantine Empire," "White Sound: A Technical Description," and several dozens more— This carefully amusing, impressive anthology of soporific dullness offers been carefully curated to place readers to rest as fast as possible. Insomniacs may also appreciate "A Staring Contest with Fifty Cats," "Some Interesting Mathematical Theorems," "The Dullest Entries from Interesting Diaries," and additional zzzzzzzz.

Boring zzzz This book is indeed cute! So, when it comes to honesty of title, I'd give that one star. Sort of cushioned & comforting, pleasantly dull, really subtle humor throughout. And even, there are some pretty dull pages in this volume -- a bit on the measurement of the linear density of fibre, for instance, or another on visualising knitting a cardigan would induce somnolence in a bull elephant at 50 paces. I'd give this as something special to my intellectual friends Laugh yourself to sleep This is an outstanding idea for a book: a collection of short articles that are deemed to be so boring that one may only nod off after reading it. "A BRIEF OVERVIEW of the Eyechart": amazing. But to my delight I also found numerous entries to be quite interesting and keeping me awake. "Breakfast in the Ancient World: riveting. And whose pulse wouldn't normally be sent racing by a perusal of "THE LIFE SPAN and Works of Porphyry the Neoplatonist"? Smartly designed, nice details. However in terms of a reserve well worth buying, I am offering it full marks.
