Tens of thousands of clinicians have used this book--now revised and expanded with 50% new material--to program and organize effective interventions for children and adolescents who have experienced complex trauma, in addition to their parents and other caregivers. The Attachment, Regulation, and Competency (ARC) framework can be used in a wide range of configurations to strengthen kid-caregiver romantic relationships and support healthy development and positive functioning. Purchasers get access to a Website where they are able to download and print the reproducible materials. In a large-size format with lay-smooth binding for easy photocopying, the book contains 79 reproducible handouts and forms. Packed with case vignettes and user-friendly clinical tools, the volume identifies essential treatment goals and provides versatile intervention strategies and abilities. Hopper, Frances K. *Observe also Treating Adult Survivors of Childhood Emotional Misuse and Neglect*, by Elizabeth K. \*More than 30 additional handouts and worksheets; all reproducible tools are actually downloadable. \*Addresses ways ARC has been used in nontraditional settings (schools, day treatment, primary care practices) in addition to diverse clinical contexts. \*Greater focus on caregiver skill advancement throughout. **New to This Edition** \*Reflects the ongoing development of ARC, including important refinements to foundational strategies and treatment targets. Grossman, Joseph Spinazzola, and Marla Zucker, which presents a complementary approach also developed at The Trauma Center at Justice Resource Institute.
