Helpful, Useful and Fun! It makes you excited to have a baby. It gives all of the medical information you will need as well as interesting specifics and enlightens you on various other cultures as well. It reduces pregnancy by weeks, and I do desire it had more images of the weekly/regular developments, but all that can be found online for free. I also like this the book discusses diet, the changing body (how exactly to minimize stretch marks), completely labor and raising a baby-toddler. I am an initial time mother, and between this book, the weekly app in my telephone, my doctors and the classes my doctors present I can say that We am excited and completely prepared for what's to come! Beautiful Publication! In the being pregnant section I love the size comparisons and the developmental milestones. I like that all two page spread is a standalone on one subject... it makes a great bathroom book! That is an easy read with actually interesting cultural comparisons. Five Stars great product Five Stars Just what I was looking for and at a great price. The order arrived quickly and in great condition. Nice shower gift Nice, concise sections - best for new and expectant parents. Great Read Wonderful reference book! Great General Info book I have a couple of pregnancy books today and get a small annoyed or overwhelmed with a lot of them. Covers being pregnant and baby care and milestones through toddler years. This book isn't only informative, and readable, but it additionally is fun. Very pretty book! It's a big publication but my favorite of all ones I will have.
