A very good book. Images and visuals are more advanced than any book I've continue reading this subject. Five Stars Great informative read! From my standpoint of a family caregiver, it is a very good book. I'd reccomend it in case you are a family group caretaker! Excellent suggestions, great illustrations, and covers lots of things you would hardly ever think of. Small print. A quick and easy reference. Five Stars Just what I needed, way too many other are "encouragement" oriented and I needed a direct overall reference. This UK publishing company did an excellent job. Five Stars Great publication and teaching device. Most helpful mainly because a reference for caregivers. Got flipped thru one at a bookstore. It covers a large spectrum of information you will need in fact it is presented in a straight-forward, visual method. I would suggest it for those who who becomes a caregiver for someone you care about A must read This is a book that is a must-read for caregivers. Great resource book! A lot of useful information for anyone beginning in caregiving for someone you care about or as a profession. Comprehensive and informative After reading this from our local library, I felt it was worthwhile to include it to my own home library. When I became a caregiver for my hubby during Hospice, I considered this book again and again. Print is too little. Most caregivers aren't young enough to read such fine print. A lot of useful information for anyone starting in caregiving for a cherished ... Bought 2. Good practical suggestions for a caregiver Very very good basic care guide. The old edition had great templates in the trunk that were helpful for me!
