Inspiring Makeup for Females over 40 Beauty 40+ demonstrates with the right skincare and makeup women may look great in any age group. Boris Entrup demonstrates how exactly to achieve 24 different looks on 13 models (primarily Caucasian) with different locks colors, including gray. Great pictures I ordered this reserve designed for eye makeup tips, and they are not really here. Thus giving me something to play with, instead of using the same make-up every day. Through the entire reserve there are complete tips on makeup application for females over 40, along with tips on skincare, beautiful hands and locks. Yes, we "females of a particular age" can wear shimmery eyeshadow and bright red lipstick, according to this makeup artist. Especially when I saw the photographs of Eveline Hall, I instantly thought that I should try to emulate just how she looks when I get 70! Her makeup appears to enhance her personality just right. Barbara Lutz, age 63, sticks out if you ask me because her epidermis looks therefore dewy and fresh. Most eye makeup instructions say to apply one color all over the upper lid, and little else. I am certain I will come back to this reserve many times. Very helpful guide for some extremely wearable looks!! But to have some fun and dramatic appears on older females was inspirational. The ladies portrayed in this book all look gorgeous. And why not?! Additionally, there are sections on skin care and locks that I found helpful as well. Being in my own late 40s, I have found at least 10 makeup looks I like and that I am able to apply on my face. The other versions are inspiring, too. Very disappointed Nice book We like that the writer used older women instead of teenagers mainly because his models! Therefore helpful and easy to use So helpful and easy to apply. This manual addresses everything I had a need to upgrade my makeup products and application! very pleased!! excellant book!! Otherwise this publication is very much like any other make-up style book. very pleased! I love this publication if for no additional reason than it has mature women models (alas with fantastic bone structure that i usually do not possess) and a range of makeup styles that I came across interesting and useful! great photos, easy to follow, simple, instructions, and list of needs, to obtain, same look! It is hard to put into terms, but she looks therefore natural and with the stunning sparkle in her eyes you can view she is young at heart! SO PLEASED! Therefore many make-up books feature only young models, which remain valuable as guidelines or for concepts! many makeovers, "Mature Girl!! It's only makeup and this publication provides some tips about how to use it to attain the affect you wish." Very Pleased!! I've already recommended it to close friends. TY
