First Aid Fast for Babies and Children: Emergency Procedures for all Parents and Caregivers

[continue reading](#)

An indispensable guideline for all parents and caretakers that covers an array of childhood emergencies. This revised and updated fifth edition abides by all of the latest health guidelines and makes medical less daunting by giving more prominence to essential actions. From anaphylaxis to burns to severe bleeding and bruising, **MEDICAL Fast for Babies and Children** offers clear tips, and step-by-step photographs demonstrate how to proceed. It even includes helpful advice on child security in and around the house. Quick reference symbols by the end of each sequence indicate whether to get medical suggestions, take your son or daughter to the hospital, or call an ambulance, and question-and-answer sections provide extra easy-to-access information. **First Aid Fast for Babies and Children** offers you almost all the direction you need to deal with a personal injury or first aid crisis and keep your baby or child safe.
