New choice for my classes This book is fantastic. It has idea provoking activities that are excellent for discussion for class. Very detailed with chapter summary at end of every chapter. Four Stars Very good condition For a text book it had been good reading. Useful reference to understand the evolving human being in relations to life experiences. this book cam in new condition. Nice short chapters. For a text book it had been good reading. Gives good information about development and all the theories that are out there. Must-read for helping professionals An easy read to help understand the growth and development of a human being from birth to loss of life. Easy book to read Very easy to read. This is very informative. I love the example situations it gives. ... have improved over the years I find this publication easy to follow The text books on Human development have improved through the years I find this book easy to check out, yet very informative. Five Stars Wonderful. Five Stars Needed it
