Don't choose the Kindle edition I'm only writing this so poorly because I acquired the Kindle edition. If you are going to get this book with all the current illustrations you certainly need to book. We all know this, but when the advice originates from somebody who can also tell you how exactly to steal an automobile, maybe it'll sink in. very easy to learn and understand, very clear illustrations. worth every penny. I think I browse it in 1-2 days. a few of the stuff i knew, most was extremely interesting. the book prioritizes easy knowledge of the topics and add's illustrations to help you visualize them doing his thing. i felt like a spy after reading this reserve. As advertised. this publication is an ideal gift for any potential rangers or seals. Great book. this book is now a fixture on my publication shelf. i will not ignore it. my younger brother really wants to find it, he is a veteran. very good news for him, i don't wanna cease, so i'm gonna buy him his own duplicate. For travelers, Emerson presents such tips about hotel safety as asking for an area midway between elevators and stairways.! Become a Real Life Jason Bourne This entire course in survival shows you preventing monitoring, evade a kidnapping, elude an energetic shooter, rappel lower the inside of the building, immobilize a thief, safeguard yourself against cyber-crooks, and far more—all using low-tech to “no-tech” techniques. Place it in a safe place that’s not in your car. Because you probably know this, when danger is imminent, it's not necessary here we are at complicated instructions. East read. lots of useful details in this book, for travelers, or simply anyone whom wishes to remain safe. Won't make you a Navy SEAL. Simply imagining the other 90teen things I was going to learn actually made me sweat a little bit. I gave it a 4 because much of it, perhaps 50%+, is simply not new info or is the usual good sense. If running is not an option, hide out of the shooter’s view, silence digital products and follow Emerson’s additional suggestions for preferred cover items and improvised ballistic armor. The writing is straight forward and easy to check out. this book was way better i quickly thought it would be. To his credit, the writer states clearly at the beginning that reading this book will not make you a warrior but may provide a trick or two that could help out in the unlikely event that something bad happens to you. (I did not threaten my significant additional-but I did show her page 3 and she promptly place me in a headlock, that was not fair, because I didn't learn to break out of the headlock until page 57. Survival inside our times Despite its title, retired Navy SEAL Clint Emerson's "100 Deadly Abilities: The SEAL Operative's Guide to Eluding Pursuers, Evading Capture, and Surviving Any Dangerous Situations", is as often applicable to civilian life concerning clandestine procedures. Fighting unarmed against a gunman? issues i didn't know. The Kindle edition sucks! And that valet crucial some car dealers put in your owner’s manual? Do it again after me: it’s a key. Obvious, detailed, and presented within an easy-to-understand and execute format, 100 Deadly Skills is surely an invaluable reference. lol! And why you probably don’t want a room on the ground ground. Every skill (usually discussed about the same page) is divided into its critical parts, includes a important thing takeaway, and is illustrated with very clear range drawings by storyboard artist Ted Slampyak. And it's really written by a guy named Clint. Those of us who aren’t hero wannabes will become relieved to know that people obtaining themselves in such dire situations can frequently be saved by pursuing Emerson’s commonsense guidelines that don’t require the response of blazing guns, at least not really from civilians. Actually, his 1st recommendation for evading danger is to run. book isn't just teaches you how exactly to do issues, but i see it as well as imagination booster. Fighting is generally the last option. Consider making your personal to give to the naughtiest acquaintances on your naughty list. Having said that, there are various tips, tricks and interesting things to learn and think about. Tips include abilities on avoiding such annoyances as car thefts, carjackings, house invasions and burglaries. Emerson says it can be done successfully, but I’ll keep readers to look at his suggestions for themselves. get it. Everybody’s favorite groaner may be the rectal concealment device. When running, remember it’s harder for a shooter to hit a moving target, so work in a zigzag pattern or from cover to cover. Or if indeed they continue to annoy you, find Emerson’s dialogue of body disposal, including the suggestions for burial at ocean which, I suppose, were followed in disposing of the body of terror mastermind Osama bin Laden. the writer makes

sure he is clear with each subject, without boring you to death. Nice oaky surface finish, with a musky flavor of Kick butt. I originally picked up this book so that I possibly could learn 100 Deadly skills. I discovered 101. You can hurl this reserve at n'er do well and if they are concurrently choking or having a heart attack, the slap of this paperback will surely push him over the edge into oblivion. We had hoped never to suffer from the discussion of dynamic shooters (Skill #073) or other armed aggressors, but recent events in Paris and San Bernardino, California, help to make these pertinent. You don't need more incentive to purchase? In 5 webpages, while seated on my couch I could imagine doing serious irreparable harm in 5 different ways. We debated whether to rate this book as a 5 or a 4. I got to threaten my significant other with PAGE 3 in order to possess her bring me an ice pop so I could simmer down. If you're a writer this book is chock filled with fun scenarios that may either spark your imagination or help you describe how your hero outwitted or outfought the bad guys. great condition item was just seeing that described, thank you! interesting If you are interested in the tactics, methods and procedures of soldiers today, that is an interesting book. Loved it Full of info Great product Great product Great read This book has a large amount of great useful skills for anyone to use. must have, just in case! Hint: never keep your keys in your car. useful. His second suggestion is to hide. Aside from practical skills, the book has plenty of juicy material on SEAL and various other covert operations methods to make it a must-read for authors in the mystery and thriller genres. very informative many of the subject material is great , and was a straightforward reading , the book was in excellent condition ,and I would recommend it very much ! Good gift Bought as something special for my husband was great
