Any Question You Have got About Natural Locks Is Answered in this BOOK! Answers if you ask me is much greater than a book to increase my library. The Book of Normal Hair Queries & If anyone can identify with the debacle of transitioning from chemical hair to natural locks then, I know you have already been very frustrated sometimes. Better yet, if you've had natural locks for a while but have selected to use a hat in terms of covering your head with 'something' (i.e. The buzz of her work provides been nothing brief of highly commendable. then it's time and energy to consult with this publication. I confess -- I am that girl! This is a wonderfully informative book! If you can relate to either of these scenarios mentioned after that, you must've questioned the integrity behind how the videos were ready. It's a no brainer for me to choose between researched literature or, a painted picture that has potential gaps in the making. After reading The Book of Natural Hair Questions & Answers from a Stylist's Perspective I sensed as though the reserve was made simply for me. I liked it primarily since it was a quick and easy browse which touched on more topics than I anticipated.!, a weave or wig) because you just cannot or won't cope with it; Practical & Helpful What I really like the most concerning this book is that the writer addresses with clearness and straightforward answers issues and occasionally fears of these who choose to keep it normal and/or are currently transitioning to natural locks. The bottom line is that it's a practical book. It is the tone of the complete publication, and it's most apparent in Chapters 13 and 14, "The Natural Locks Bride," and "Natural Locks in the Workplace. VERY INFORMATIVE AND EASY TO READ ADVISE SEEMS HELPFUL AND IDEAS FOR CONTINUED HEALTHY HAIR ARE USEFUL A Complete Information to Beautiful Natural Hair This is a must read in an easy Q& The True Science of Natural Hair The Book of Natural Hair Questions and Answers ought to be an integral part of every organic hair enthusiast's collection. This will certainly be my reference publication as a fairly new natural person. The reader is normally educated on what some of the natural locks jargon really means and also how to care for their natural tresses from the within out. A format for anyone who embarks on wearing a chemical substance free natural hair style. I transitioned for 15 months before finally getting the tranquil ends chopped off.. VERY INFORMATIVE AND EASY TO READ ADVISE SEEMS HELPFUL AND IDEAS FOR CONTINUED . For example, I feel so much better in my decision to hair shampoo my hair regularly (especially since I workout) because based on info you find on the internet I should not be doing so more than once a month. I would recommend this publication to those who find themselves new to natural hair-styling and need to understand how to maintain healthy hair. This reserve is incomparable to other natural locks books because Yesenia explains the actual science of hair that makes it less complicated for the reader to comprehend and connect with their locks on a deeper level beyond products and styling. A MUST READ! Just how many moments have you gone to an online video to obtain recommendations on what products to make use of and/or, have selected the most famous video to mimic every part of hopes your locks will turn out the same as the model's locks the very next day? A EXCELLENT TEACHING TOOL! There is so much confusing (questionable) details out there especially from those people who are not experts.. I want I had this publication when I first decided to go natural because I'd have saved so very much money on items that I did not need." So while she has an encyclopedic format that's helpful to cosmetologists, in addition to clients, these last chapters indicate an important characteristic for each and every hair stylist that may greatly benefit their clients—a genuine interest and concern for the every-day situations their customers face and a gracious outlook and response to those that don't quite understand their choice to move natural. Wish I had this when I was transitioning. The writer breaks down the requirements of natural locks along with stylish notes (little gems) such as

using a good sunscreen to safeguard the hair. It really is a comprehensive guide to keep healthy and beautiful hair for all ages. Loved This Publication! I am anxiously anticipating part II, as new products are being created and if only for recommendations based on the author's research.!! That may function for some but definitely not for me personally. This book provides good information regarding different hair styles, shampoos/conditioners, styling tools, wigs/weaves, and so a lot more. So pleased I made this purchase. I have currently started applying many suggestions from this publication to my natural hair and can see and feel an amazing difference! This book is a resource that can be used as helpful information to answer any questions you might have about the condition of your very own natural hair.
