Bought it for my 15 calendar year old girl thinking it would have got at least a few pictures showing what they were talking about One Star must have been free Decent for a young "tween" Got this for my niece that's just learning about make up application. Very easy examine that she went through in a couple hours, but many hours of reference material obtainable! She liked the book. I don't recommend this "book" at all. The size of a pamphlet Just what a complete waste of money. Five Stars Granddaughter enjoyed this. I assume I thought there will be some type of a how to guide bu it really isn't.! My niece has no experience with make-up and I anticipated this book to have illustrations for her to follow along with appropriate tips about application for young teens. I was disappointed in this publication considering a person who is learning constitute basics wouldn't be interested in a text-heavy book.
