Even Pretty Ladies...POO: The pretty girl's survival guide to avoiding the uglies. Moments and, of course, Ugliest of the Uglies - an absolute arsenal of tricks and tips to ensure every female keeps her head up, lipstick on and conquers the world... without the proverbial spinach in her teeth! This book covers an array of self-help topics through chapters such as Beauty, Sex, You-o-licious, Dudes, OMG! It's no secret that ladies encounter the same uglies that males do, yet find you don't need to brag about it. Learn how to sidestep all property mines like a woman, while surreptitiously moonwalking away of a room... Not every chapter is for each female - but every woman will see her chapter.

Humorous and incredibly informative! A must read!Bravo Maggie!!! I bought this reserve after reading the title and seeing the cover and thinking to myself "I have to read this"!!! I enjoyed everything about any of it. Maggie Kouri protected everything that all women ought to know and learn.!!. Essential read for everyone females out there and perhaps their guys (If they're thinking about how their gals mind works)!). I've learned so many new conditions and have a fresh perspective on outdated, rather embarrassing topics I was as well afraid to talk about with anyone and for that I many thanks! I can't wait to talk about it with all my girlfriends!!!.! Excellent! In the reserve, Kouri covers problems, mishaps, and fears that are all a normal part of being female. Hi Maggie! First stuff first, your publication is amazing! I highly recommend this book.!! :) Keep up the great work girlfriend! I'm 43 years old and she answered questions that I've generally wondered about but was as well embarrassed to enquire about (one word. Great Browse! I'm so excited to read any upcoming books you have developing, consider me a BIG enthusiast!! Fabulous Info and engaging read!! Will buy more from this Writer!!! Loved This Book Very Much!!! Maggie Kouri makes this book light hearted but it is filled with serious tips for constantly looking and becoming your best! You will certainly learn a few brand-new tricks you by no means knew you did not know. A must read That is an informative, real life "how to" manual for women. Thus we are able to all relate and laugh. This is comparable to the writing design of Erma Bombeck, just boldly likely to a new level of information that matters to present day women! Love Button! Enlightening, provocative but mainly just hysterical, this is perhaps the best book to read and talk about with your girlfriends.! It really is witty, enjoyable, and the writer speaks not only from knowledge but throws in tidbits from others real life girly circumstances.! If there have been one publication that I would suggest to all my sisters out generally there, this would be the one. It stands just like a lighthouse for women warning them how to prevent the inevitable and possibly "messy female situations". a MUST go through for each and every gal! Laughed aloud thru the whole thing!! One of my favorite chapters was "Scent of an inexpensive Woman". I loved every chapter in this book! As you therefore eloquently say, "Nothing at all speaks "affordable hooker" more than cheap perfume"! A Reserve for All Ages Great and filled up with humor Funny and packed with great tips and suggestions for each and every girl/woman! But more than simply noting the sociable faux pas, she also provides useful advice reminiscent of Joan River's outlandish design, throwing out the "good girl rules" and telling the truth.snowflakes!!!!! So much fun, hilarious and very informative! xo
