After years of preaching, teaching, and counseling, influential Christian innovator A. Bernard reveals the four qualities ladies want in a man—R.characteristics that contribute to a satisfying and happy romantic relationship.As a longtime pastor of a big-city church, A. In his publication, Bernard teaches readers how to recognize and cultivate these characteristics toward a content and long-lasting relationship— Bernard has witnessed couples in every stage of life. He’s been with them as they experienced dizzying joys, unspeakable tragedies, and everything in between.s seen that whilst every situation is exclusive, people’ With this in mind, Bernard has created a straightforward system for focusing on how lovers relate to each other. After almost four decades of preaching, teaching, and counseling, he’ As women and men have come to Bernard for spiritual counseling and guidance, he’s behaviors and outcomes are amazingly consistent.s learned patterns of behavior that are repeated time and again. Maturity, decisiveness, regularity, and strength—they are the four items women want and want most from a man.R.one built to weather any storm.

Awesome book! It's concise, not preachy. My wait had not been in vain. If we are able to get this book in to the hands of every black man AND get them to examine and research it together, it will change our community once we know it. The info inside is usually Biblically sound and relies greatly on the males in the family members to take full responsibility for themselves and their wives and family members. Excellent book This book ought to be required reading for each young person regardless of religious affiliation. It was an easy read therefore informative. I would certainly recommend this as required reading for black men in churches, universities, prisons, anywhere you may get it to them. Information Must have! R. Bernard's transparency into his own 45 12 months marriage. Bernard! Great reserve!. It discusses obviously and concisely the wishes of men and women - exposing that people are likely looking for the same issue however the manifestation of each by gender vary.. This book is a good addition to the library of any man or woman This book is an excellent addition to the library of any male or female. great reserve. I would suggest it to single, married, or those taking into consideration marriage in the future. There has to be some life changing things within. I also just like the fact that as you're this it will make you think and before you realize you're completed with the reserve.. I experienced some reservations but this reserve helped me to obtain obvious about my reservations. Although he is a great guy, he's not the one for me at this time. Thanks Dr. Very thought provoking I rated this publication a 5 star because it is rather helpful, and Biblically and prayer based with examples of not only how men should live but also women by the principles that are instructed by God. Must Read This is my pastor and I really like hearing him on Sundays. I was very curious about this book because it has been promised to us for awhile. This book has the potential to change the complete landscape for the black family! Essential read!.. Trimming through all of the jargon Bernard targets four traits, maturity, decisiveness, consistency, and strength. It's an excellent reference periodically and the very best part, you'll soon recognize that the principles connect with therefore many areas in your daily life also. This is where the real work begins! It removes all of the doubts and fears of what adulthood is. It clearly and truly explains how a real guy behaves. The advice is practical rather than "preachy". The prose flows so well that one can find oneself inclined to comprehensive in one sitting. The key qualities in men sought by women, explained from a place of kindness The minefield of present day dating and relationships is befuddling, and particularly in a world with so many competing viewpoints and media saturation. It is also not a reserve that will be go through once and deposit. This book is really good. In retrospect, the 4 traits appear simple enough, however each of the 4 involves self-discipline, which is apparently the overarching theme of all four factors. The development of each of the four elements requires accurate self-reflection and self-discipline; you cannot fake maturity, decisiveness, consistency or strength. Fortunately faith, family, and community can all serve to help in these qualities. This book gives the clueless an improved clue in regards to what a woman is really looking for in a life partner, and start some on the path to developing a older self. Good, Basic Assistance for Mature Couples It's a book that I would suggest for couples likely to get married in order to help them with the tools necessary for an effective marriage. Although you can find good nuggets of wisdom, at times I thought the book lacked depth for the reason that it might use more practical steps in achieving the lofty goals stated. Simple and to the point. This book has helped me find the words that had been at the tip of my tongue and the top of my list. Today he must come built with them or keep on movin'! I waited through 3 long term romantic relationships to see these characteristics. The author is right about a lot of the characteristics of women and how they relate to how we relate with men! The publication is written from a perspective that throughout history our outlook and sights about marriage may change, but we must rely on God's word that's always true and never changes no matter the days. Great book by a great author and pastor! Quick shipment. Loving the brand new son. Great book Good read Great book!! I like the truth that anyone can pick this up, browse it and apply all or some of the concepts to your daily life immediately or just a little later. Through his encounter, these four

elements are detailed being the traits women seek, and also the foundations for the makings of a accountable male. I'm learning a whole lot from the content. Life changing book This book was given as a gift to my adult son. I even purchased it for a pal that wished to consider dating towards relationship. Would order from vendor again. Fantastic Great book. This was an excellent book for strengthening relationships Good book Great book and author Great Read!.thanks a lot! I was extremely impressed with A. Information very interesting
