I really like anything from the Sweet Potato Queens books I love anything from the Lovely Potato Queens books. These books helped me thru the most difficult occasions in my own life, with laugh aloud events recounted in the books. That is almost unheard of for me personally! I really like how Jill Conner Browne takes everyday activity experiences and enables you to laugh at them and yourself. Taken for what it is usually- a funny, well-written and pleasant book, it really is well worth enough time. We earn all those lines and wrinkles and thighs. This is a toned down, mellowed out, but still very funny, follow up. There are many laughs and yummy sounding recipes, too. One Star Does not meet the Jill Conner Browne I have go through or heard previously. Meh~ Meh~ Much less witty or clever as others in the same genre~ Five Stars Thoroughly enjoyed Five Stars Loved this book! Another funny LOL Potato queens masterpiece. The Nice Potato Queens are generally pretty funny, but I probably won't relisten to this one. Ms Browne's discussion as often contains a major sprinkling of southern attraction and REAL woman experiences. Too funny. Funny and entertaining! Other Lovely Potato Queens Books are Funnier I love listening to the recordings of the Nice Potato Queens books. It arrived with very little fanfare. can't wait to read more from this author. Oh, one warning. My husband came out to talk to why I was laughing my head off in the middle of the night, so I read the "offending" passage to him. He just shook his head and returned to bed muttering to himself. Oh well! Jill's books are always laugh aloud funny! They will have a funny method to consider the things that eventually most of us aging, problems with guys, the desire to consume lots of delicious but unhealthy food. That one didn't quite surpass the sooner books though. I thought I was hearing repeated issues from previous books and it didn't seem that the stories really linked to the stated subject of the book. I must read it alone therefore i don't wake hubby with all my outbursts of laughter. a fun and funny read I had read some other Nice Potato Queens books some years ago and really enjoyed them. It really is about acceptance and simply liking yourself at whatever age, or whatever your thighs, neck, face, etc looks like! Quick and breezy to read (bogs down in a couple of places). Love Jill Conner Dark brown. Hope to see another edition with this humorous undertake lifestyle and aging in a few more years. I have constantly loved Jill Conner Brown's sense of humor, but I guess for me, she is obtaining a little stale. This reserve was just a little disorganized and rambled off subject matter a bit, so I didn't enjoy it quite so much. We wouldn't label it as her best or chock filled with all sorts of new stuff, but it is quite enjoyable and a good read. This isn't her BEST book - if you are looking for an intro to the Lovely Potato Queens, I'd recommend reading "The Sweet Potato Queens' Reserve of Love" - but if you know and love her, jump correct in! I have usually preordered her books and didn't even realize this one was out until I saw it at Borders. Solid addition to the SPQ series If you're a fan of Jill Conner Browne and her Sweet Potato Queen series, you will enjoy this latest addition. We all have been aging, but we don't have to accept it with regrets, live to the max. If you've read and/or own the rest of the series, you'll definately want to choose this one up aswell! I've been to several her publication signing, but haven't seen one announced because of this tome. If she does a reading and signing near you, be sure to take a look! Another residential run! Can't wait around to learn Jill Browne's other books. We was on a cruise liner when I saw this book in it's library. I laughed until I cried. Great read! Five Stars I love Jill Connor Browne and her inventive Sweet Potato Queens adventures in life.
