This is a very short book and I only gave it 4 superstars not due to content but from price! Dr.. Excellent and informative book Informative and to the point. Get this book! The information can be basic and not presented well. Highly recommended. One Star. Chamberlain's usage of real life circumstances dating from WWII, when individuals were truly involved in apocalyptic situations, actually helped bring home the value of the lessons. If you're a doctor or a nurse, you need to read it also it is a nice planning tool. dark and white grainy pictures I returned this reserve. The pictures are black and white and quite grainy.
