With over 60 years of combined experience in education, teaching and parenting, Monica Reinhard-Gorney and Perk Musacchio provide a comprehensive source for parents that explains how children develop at all levels and provides progressive research on child and brain development. The authors reveal over 100 safe, drug-free interventions and strategies backed by research to encourage the body and brain to perform optimally, and even display the potential to boost symptoms of ADD/ADHD, fine and gross electric motor deficits, and various other learning disabilities. NO ISSUE! No Manual? Furthermore, the book provides to light why some parenting designs work while others flunk, helping you to cultivate and nurture a parenting design that works best for you as well as your child. Shared alongside these details are personal accounts of successful implementation of the many strategies and interventions. empowers you to take an active role in your child's development in all stages so that your child may reach his or her full potential.

I heard about this reserve from a co-employee, and decided to get it. A MUST have book! I must admit I must say I hadn't idea all that much about how exactly different the world is certainly from when I was a youngster and how that impacts kids and schools, however the authors make a whole lot of valid factors, and they offer many ways for parents and various other adults to greatly help kids offer with a number of stressful factors. Anyone who cares about kids should read this publication.
