Easy to make healthy hair care products out of every day make and oils.! I'm happy that she never brought up fragrance natural oils since I believe that the man made stuff added couldn't possibly be best for natural hair treatment. Good shampoos are expensive and the cheap kinds can do more damage and injury to your hair and scalp.! In this book you will discover recipes for all sorts of hair - oily, limp, frizzy .. Like doing diy for natural hair which was an excellent selection if you are someone who doesn't brain rolling up your sleeves and getting your hands a little messy you will enjoy this book. pick the one that would work for your type and mash or mix away. It requires little to virtually no time and you also have excellent hair care products that are made from natural and whole foods. Prepare to have gorgeous and easily manageable locks. my wife had been complaining My wife have been complaining that she thought that the hair items she is using is certainly damaging her hair. With the whole world moving away from chemical substances, she feels she should too. THEREFORE I grabbed this book for her. She was quite worked up about the various items, steps to make them and of course the fact that they are natural,. She is jacked and appears forward to trying them out!! You will get the same recipes on YouTube or Pinterest free of charge. A great publication on how to generate natural hair items with items from around tghe home...!. Not really what I expected nonetheless it is entreaining and somewhat useful. Similar to homemade pamphlet. Love the hair recipes! The products work well! More like homemade pamphlet This not really a book. We had a party building the shampoos and other hair products, it was lots of fun. I once wore weaves and five years when i stopped I cannot see the advantage in it. Provides quality recipes that are simple, component friendly (I have the majority of the items available.. Great little reserve to create home hair products and it's also fun.), and work very well. Generally it is an excellent read and proof you have stuff lying around . They are great recipes and will save you profit the long run.. I have a lot of what is listed in this book. For the most part it is an excellent read and proof you have stuff lying around your house that promotes natural hair treatment. Since I make homemade soap most of the essential oils she lists are in my soaping room. I was pleasantly surprised at the countless ways we we can use fresh make and oils sitting inside our fridges and pantries to create natural healthy hair products such as for example shampoos, conditioners, actually gels and hairsprays. Three Stars Most of the info We already knew from the internet. I personally cannot get on panel with encouraging women to wear something that isn't naturally part of them as a process of growing hair. Informative and easy to read Informative and readable. Interesting It really is an informative publication that is logical with several helpful quality recipes for your hair. Great recipes.... I am disappointed as I experienced a view of the book as one that would concentrate on the natural locks that grows on a person's head. THAT I think will become very helpful in keeping a complete head of hair. GREAT!! Moreover you will discover artificial chemicals in both types and these can be harmful to your health, especially if you have asthma or suffer from allergies. GREAT! You can find recipes from hair sprays to shampoos. This book, Natural Locks Recipes goes back to the roots (yes pun intended) of quality healthy hair care. Informative Going to try and reveal your book with others thank you for the quality recipes! There's a lot of naturalistas that don't know what to use for there hair type So much to know on the subject of DIY recipes for natural hair - quite informative! This book is a good follow-up to '45 recipes' by C Collins. I found this book has more information about specific ingredients. The extra time invested to learn this guide is worth it! However, very much as I've enjoyed the majority of this book there's one subject that triggered me to provide four instead of five stars--weaves.
