a must have for all new parents This book is crucial have for just about any new parents. Without drowning you in too much unnecessary details or background, it goes to the essential stuff in an clear to see and concise manner (trust me, you will appreciate this quality when your baby arrives - you'll have no time to start reading the Oxford Handbook of Pediatrics). The publication covers the most common questions you may be requesting in a no-nonsense manner that means it is clear when you can relax and when you should contact your doctor. Thinking of it, your doctor can purchase you this book given that they would be the one benefiting most from it! Dr. Gedenberg writes from years of connection with dealing with both kids and parents and this understanding displays in the publication. You will not regret buying it. This concise manual is the best read for . Short and sweet... This book is strictly what the cover says, it's a Manual. This concise manual is the greatest read for fresh parents. I produced so many unnecessary trips to the doctor's workplace. It's all in a single book and is very easy to read This is an extremely helpful book about the basics of baby look after new parents. This reserve contains a lot of the information you need in mention of infant health from nutrition to rashes. Highly recommended. Loved it! The Baby Manuel is such a great book. It is very easy to understand and As a birth doula, I give this reserve out to all fresh parents. is on stage with advice that's practical and fun to learn This doctor is on point with advice that's practical and fun to read. Gedenberg's expert advice and answers to care for a newborn is usually well thoughtout and helpful. This book is strictly what the cover says, it's ... Short and sweet. You will find the \*\* answers\*\* to the need-to-know questions, from an authority, with hands on experience. This book covers the "crunchy" and the "regular" with a matter-of-fact clearness and non-judgement. It is so easy to understand and, perfectly written. After reading only a few pages, We couldn't put this book down. It can help with all your questions and places you in the driver's seat. All the questions you want you remembered to ask your pediatrician! I really like how the information is broken into obvious categories, and it's an easy task to quickly flip to the web page you need. This book is great! You can't always contact your physician or a nurse range at 3am to wonder if you baby is consuming plenty of, or if this rash can be normal, so this book is a superb mention of the "essentials of babying. I love the poop rainbow! Great manual for Grandparents, too! This book is worth buying 2, one so that you can keep and something to lend to friends and family.. I will have three grown kids, and wish this informative manual was available if they were infants. Neglect all those dictionary sized parenting books, this is actually the down and filthy you will need. This Baby Manual is a good gift for quickly to end up being parents, and grandparents, baby sitters and baby day care services. Priceless information. Helpful and an instant read Just what a helpful quick read! It's all in a single book and is very easy to read, specifically for sleep deprived parents.This is an absolute must have book for all new parents! I would recommend it. Extremely Helpful Book I can't imagine bringing a fresh baby home without knowing the items this book taught me! From learning which skin rashes are normal to learning what to expect from baby's initial bowel movements, the info Dr. Gedenberg presents is definitely clear and comprehensive. I know that many occasions of panic with a new baby have been prevented because this book gave me a sense of what's to come and how to handle those circumstances as they arise. If your Brining a Beautiful baby into this world If your Brining a lovely baby into this world, you want to make sure your baby is taken care of. It is a quick, useful read that I would recommend to anyone who anticipates caring for a newborn! This book is a good way to begin with!:-) it was an ideal gift for our friend that just had a baby This book was so helpful, it had been an ideal gift for our friend that just had a baby!. . Highly recommend it. Readable, straight to the idea. Dr." I'd suggest it to all new parents, especially if you're the sort who likes to ask

questions! Great Book! This book is an easy-to-understand tell-all for infant care. Essential read for soon-to-be first time parents! For fresh parents, short and concise info is what is needed. If you can find conclusions drawn by the author, they're for safety and common sense, otherwise she supplies the information and you also make the decisions about what is right for your dear one. I really like this book I love this book. It's therefore helpful to share with expectant parents who I discover as customers. Everyone has appreciated it!
