This is among a series of picture books for seniors with no text, specifically formatted for those who enjoy searching through a book yet have a problem with reading.5 soft cover book (ideal for keeping) with vivid, full-color photographs, located only on the right side (to supply visual stimulation without causing someone to feel overwhelmed). With the goal of providing visually appealing books that increase self-esteem and satisfaction in book ownership, there are no words on the cover or inside that mention that is geared for seniors, adults with reading troubles, Alzheimer's patients or various other. With the requirements of the senior in mind, this picture book is a square 8.5 x 8. If your loved one is offended by being given children's book or finds weighty, hard-cover books tough to hold, this is the solution. Photos of beautiful forest views from all over the world provide a unique scene on the switch of each page. Each gorgeous top quality (300 DPI) picture was carefully selected to evoke peace, beauty, relaxed and a sense of awe in OUR MOTHER EARTH. The final page lists photo/artist credits. Please be aware: The only real script is whatever should be legally included: Name page (that does not mention that is geared for seniors), copyright and ISBN. With 44 huge photos (91 total web page count) in shiny, vivid full-color, a senior will see pleasure in 'reading' this book over and over. This is an even 1 publication. If you are looking for picture books for seniors that do include some captions, please turn to Emma Rose Sparrow's Level 2 books. For short story books with 1 to 3 photos per chapter, turn to her Level 3 books.
