Excellent value! This was a fantastic choice for my first time using face charts. I appreciated that it included both man and female face styles in addition to charts with half-faces and ones for only eyes and lips. Good book for the budding makeup artist. I wish it included some more face shapes, but it wasn't a huge problem for my needs (designing looks for a small theatrical show). It had been also cheaper than I expected, which I appreciate! I just want the binding was different because it's hard to open up and lay flat. It also allows the person to experiment with something different without trying it on the face first. This book is for a person who is more complex in performing make-up. After designing the display, I still have a lot of charts leftover to use for future events. Horrible product This is only a COLORING BOOK for adults, and not even a good one at that. I use them during . Sure beats the heck out of spending a lot of money printing up your personal face charts.. Thank goodness I came across these. I use them during make-up lessons.. Great face chart book for practicing fresh looks and colors Great face chart book for practicing fresh looks and colors. Certainly takes a little getting used to as a beginner but this is a great reserve to practice in. It's a great book but I want the faces were bigger It's a great book but I want the faces were bigger. It works for what I want it for and the price point was great. Two Stars The eyes are so little you can't even begin to utilize them for actual technique practice. Wish it had more than one face :(Please take note every page may be the same face :(otherwise nice Great reserve for teens and or anyone wanting to learn . One Star not Three Stars Not for me!. Great book for teens and or anyone wanting to learn brand-new techniques/how to apply makeup. Recommend for presents and makeup junkies..! Five Stars Excellent!!! The tips and practice webpages in leading of the notebook make this a fantastic choice for beginners. These face charts are excellent to have as a make-up artist to repeat looks and remember looks I did in a trial that I have to replicate sometimes provided that 2 months down the road a bride. It's an excellent learning tool Good seller. Great makeup artist device! It allows an individual to develop combinations that may work. Thank goodness I found these. In mint condition and I can attribute the most of this being no one even opened them except to check out them.
