Bravery, dedication and wit kept this young lady alive. A great story of perseverance when confronted with unimaginable obstacles. Many thanks Tara for sharing this amazing young woman's tale. The only details I was wishing to learn was how she felt when she was reunited with her family members. It really is only 41 pages long, and I browse it in 20 moments. It really is hard to not hand out the entire story. A young lady, named Autumn Veatch, applies to a plane ride, so when it crashes, 2 others who are with her are killed. She has to create it out of a chilling forest over a two day and night pilgrimage while not only wet, she was also exhausted, starving, scared, filled up with grief, shock and horror. Her wit, perseverance, bravery and hope served her well, and I am thankful she is alive. Very touching and the author brought the details out so very much that you nearly could smell the trees, feel the cold, and have you rooting for Autumn the complete time like you are right there with her, cheering her on. I think she actually is a rock celebrity! It's even more of a big pamphlet Amazing Courage Short story that went fast for me. When this review arrived, I wanted to learn more about the girl who had overcome so very much and became a genuine survivor in more methods than one. This is a well-written account by Tara Ellis of what it took for Ms. Veatch to complete this harrowing encounter. Kudos to both Ms. Ellis and Ms. Veatch. This is a brief but powerful story. Recommend. Powerful! What a powerful story about a very strong dude. I possibly could feel her discomfort and suffering completely and yet could feel her strength overcome it. Who were the guys in the trailhead car parking lot? One Star What a waste of \$3 Three Stars This is almost not really a book. Way to go Autumn Veatch! How do she deal with the trauma of what occurred to her? I'm pleased for Autumn's sake it wasn't! Autumn, you are an amazing person! Short but powerful Well-written, true accounts of a plane crash survivor. And have to go out of the solid forest in chilling cold weather over two night and sopping wet! Well done! Veatch for an excellent read. Very well written, I could smell the fire, experience the cold and fear. Leaves the reader with way too many questions. We applaud her, and hope that if I were ever for the reason that situation I'd rise and conquer like Autumn did! I hold her in the highest regard, and hope she has an excellent long and happy lifestyle ??? WOW! Surviving a Plane Crash and freezing nights WOW! An incredible tale. Vivid descriptions of the tough terrain and the youthful teen's emotions during the ordeal still left me breathless at times.. I'll never get by someone again and not wonder if they need help. so very much love and friendship from all the people they encountered a . Thank you for sharing your tragic tale of survival. Autumn's brains and her wit kept her alive, I experienced like I was there beside you. Amazing Autumn! What an unbelievable tale of surviving a plane crash! How do you rate someone's incredible life knowledge? I only wish the read could have been much longer, but to think of it. Way too short. Autumn is an incredible young woman, and I am amazed at her tenacity, and keeping it together to get herself out of her situation. Seriously, this series of books are simply too short. Queries abound. By no means under estimate will power and inner strength! How did she get to the hospital? How lousy were her injuries? Were the grandparents discovered?. It is excellent and I hope if you read it that it offers you the courage to realize you manage to do what you want to do to survive Amazing strong dude. Autumn is really an unbelievable young woman!. FROM START TO Finish off was hard to put down,,,so much love and friendship from all of the people they encountered a great book . This is my review of Getting Out Alive: The Autumn Veatch Tale, True Stories of Survival Reserve 1. I adopted the news of this tale from Florida and actually was surprised at Autumn's perseverance. I could only imagine her discomfort, both physically and mentally. I am hoping Autumn grows up to be an amazing person. A Gripping Tale of Survival Getting Out Alive: The Autumn Veatch Tale by Tara Ellis is usually a gripping

tale about Autumn's survival in a plane crash that killed her stage grandparents. Tara is such an excellent writer and always in a position to capture emotions of situations complete with a robust positive message. We had read the news article when the incident happened and idea that it had been a miracle that Autumn survived and was able to hike out from the wilderness to finally be rescued. I go through it in 20 mins and was impressed by Autumn's courage. I hate trying to review a book that is this short. It must have been a mixed emotional time for her parents, to lose parents but have their daughter back. She managed to get one step at a time I borrowed this book through Kindle Unlimited. It's the true tale of an adolescent who didn't have very much self-confidence in herself but discovered the strength to manage to get from the mountain forest by trekking for 3 times.
