Paint by Sticker may be the most exciting new idea in activity books, both for grown-ups and kids. paintings.s utterly absorbing, both in the pleasure of peeling and sticking and the growing satisfaction of watching a “ The original pictures are rendered in low-poly, a computer graphics design using geometric polygon styles to create a 3D effect. As in paint-by-number, each template is split into dozens of spaces, each with a number that corresponds to a specific sticker. Discover the sticker, peel it, and stick it in the proper space. become more active, emerging from a set black-and-white illustration to a dazzling picture with color, body, and spirit.s a task that it””painting” Add the next, and the next, and the next Paint by Sticker: Birds celebrates the rainbow of colours and styles of the avian world: a red-headed woodpecker, a blue jay, an orange and dark Baltimore oriole, an electric shiny hummingbird. A compelling activity for crafters and performers, doodlers and colorers of all ages, each Paint by Sticker book includes everything you need to create twelve lively, full-color “

Great concept, low quality in comparison to earlier books My 5-year-old is very into artwork and loves the Color by Sticker series. Good buy Good buy Quality paper and stickers So much fun! Ideal for fine motor development, and a perfect alternative to consumer electronics when he requires a silent activity. After completing the initial four books (Color By Sticker, PBS Masterpieces, PBS Kids, and PBS Kids Zoo Animals), he was so thrilled to hear a fresh one was developing. Unfortunately, the quality of the books appears to have really declined with the brand new releases. As a previous reviewer stated, the stickers in this book aren't fully lower and tear conveniently when you make an effort to remove them. Even though my child asked me for help on his first picture, I couldn't appear to get them out without plenty of torn edges and missing corners. AMAZING for kids and adults! Mamaw (that's "Grandma" for anybody not from Kentucky :D) loves to buy our kids stickers, and asked me personally to search Amazon for a few new stickers. One of is own favorite things to do is abruptly a way to obtain crying and frustration. I hope the publisher addresses this issue quickly, and we can make contact with enjoying Paint by Sticker as much as we did before. I occurred upon these books, and in true Mamaw fashion, she thought to obtain them all! This particular book has been amazing for our bird-loving six 12 months old-she loves to total the "paintings", and loves to research the birds collectively while she functions! Some people tell me that it's an costly hobby for just 4 nights of fun but I really enjoy them so when I'm in between books I miss doing them. Both of our big children have used these (age range six and five), and also have let me help on several occasions. I am enjoying this reserve and would give it five superstars but some of the stickers usually do not come out correctly and I've had to lower them or they tear..! Five Stars 27 yrs . old and totally addicted. Relaxing Fun I know some people are complaining that the stickers do not fit precisely and keep some gaps, but I don't believe that is really a problem. Extremely relaxing and fun. There are some gaps, but I think that that actually adds to the homemade charm. They provide the picture some dimension. I had an enjoyable experience filling in this book, and simply ordered two more Paint by Sticker books. The stickers and the paper are great and thick. This publication has enough to do on each picture to make it last longer a day to do the book. EASILY start with A1 and go to be able and search for the spot the sticker goes, then it can help to make it go longer too. It has 12 images to do and I tend to do 3 per night while winding down for bed. I have also found that these paint-by-sticker books help our children focus and stay silent during our read-aloud moments, and are also ideal for packing whenever we will be hanging out in wait rooms at the dentist, pediatrician's office, etc. received Fun puzzles to function! There are a few for every picture that tear when you peel them off and a few that are too small for the area they are meant to fill. I love a challenge. Still well worth the ~\$10 though. I've got the whole series. I enjoy them all! Our only negative is that they don't have significantly more titles in the lineup, once we have eliminated through all of them already! I am hoping the publisher looks at the reviews, because I'd love to see vacation books, like for Halloween, Christmas, and Easter! Very Fun Book!. In any other case it is fun to do these. Lovely art! She actually is 4 and enjoys her book! I simply wish all of the stickers were lower properly..! So much more relaxing than coloring. More relaxing than a coloring book Love these so much! Very addicting Cool birds however, many are a small too basic for my liking. But overall I really like these books and I will definitely by buying even more! I was surprised at how much fun We had as well! Novel idea and so fun. So fun to do with kids of college age. The guy can do them on his own, and would finish a complete book in one sitting if we didn't make him sleep from time to time! This book is quite high quality. Very pleased with this sticker simply by number book Very pleased with this sticker by number book. Do yourself a favor and buy some good tweezers to assist you precisely place each gorgeous piece. I do hope one time they will obtain cheaper but until then I will pace myself! Love these sticker books! Definitely the very best adult sticker books in the marketplace! If you really invest some time on each individual sticker, they suit really well. Doing these pictures takes my mind off my issues. It's diverting and a good solution when I don't have enough time or space to do a jigsaw puzzle, but need something involving. I am purchasing every one around!

I acquired the children's publication for my granddaughter and we focus on them simultaneously. Do you prefer birds? This reserve is a soothing way to create art. Work with a fine point tweezer to lay the art onto the paper and present your friends!
