Fogless and flawless I've been wanting a fogless mirror in the shower for awhile now. We remodeled and included a spa device that's stainless and I was able to stick it to that with no problems. Five Stars Very easy to comprehend, well written Good! It does state in the remarks and q&a what it should adhere to, but it's also suggested to just try and if you want to come back it bc it doesn't stay that it's no problem. So I find that as really good CS. All around I'm pleased with the size, the adherence, and the fogless abilities. This one is better than I was expecting and I'm really pleased with it. Used it today in the shower no fog on it, either. Anyway, it wouldn't adhere to our fresh ceramic shower wall space and We didn't want to buy on the glass doorways. Please ask when you have any questions. I give it 5 stars. We purchased this mirror at a lower price to trial and review. I found recipes that never have. It's a book It's a publication what do you anticipate. The bottom is a suction glass but it twists to lock it onto the surface. Thanks a lot for reading. All quality recipes compare with my very own and variations aren't significant. I will experiment with many of them. Worth the money Very nice book lots of recipes have not tried any as of yet ingred are no problem finding instructions are easy to fallow wanting to try these recipes out
