The info in this book offers you a simple introduction to the artwork of perfume making. This is a preview of what you'll learn: What products you'll have to get established up Basic techniques for combining the ingredients How to extract aromas from refreshing or dried natural herbs and flowers The usage of essential oils to generate more complex blends Scent profiles of many of the most popular aromas Recipes for a few tried-and-true perfumes to get you started Organic Perfume Basic & Easy Herbal Perfume Dishes To Making Divine Smelling Fragrances Industrial perfumes could be expensive, and often contain harmful chemicals that you don't wish anywhere near your skin. Making perfume is a wonderful method to experiment and become innovative while still pouring your energies into something productive—the end result of which is an alluring and healthy alternative to the industrial perfumes for sale in the shop. Making your very own perfumes in the home using herbal products and essential oils could be a healthier, cheaper, and all-natural alternate—and it's surprisingly easy to get started.
