and was very disappointed since it has such an excellent title I purchase and own hundreds of make-up books and study and use every one of them. Could use more illustrations and more methods.! Nothing brand-new in the book that hasn't been stated in regular tutorials, mags, or Pinterest!! The writing was also inadequate, as were the images.. A mild reminder we are able to all use to avoid the pitfalls of clownish make-up & Five Stars great and simple!! Many thanks One Star ITS ABOUT 20 Web pages LONG!! NOTTTTTT WORTH IT Not for the make-up novice but also for beginners This book is actually geared towards beginners. looking like a buffoon. A Great Lesson for all of us All Simply put. For beginners & benefits alike. AND--- really I am not incredibly picky, if I can find even one really great tip or one great way somebody describes something to create it easy or interesting I'll rate it well. It gave helpful tips and tips but I didn't gain anything not used to provide me any fresh inspiration or new techniques on to how exactly to apply makeup better. Okay This books was not the greatest.! I'd say save your valuable money on this one , believe me there are some excellent books out there still inprint and means of getting some excellent out of print books on makeup program. Good basic This is an excellent beginner book.. if you are searching for the fundamentals this reserve is for you personally. This is one of my least favorites, and was very disappointed because it has such an excellent title, but honestly I really do not feel it should be in a position to carry such an excellent title, kind of deceiving, there are so many great books out there that may actually help a person to get their makeup program near professional , but that is definitely not really one of them, as a matter of fact I came across it downright disappointing, I assume you ought not give ok a fantastic title. Five Stars easy reading
