A beautiful tribute to a lovely woman and a catalyst for wish and conversation. "This is quite a book! In a few measure each of us either is definitely or will be on this final journey soon. It is a book we can both experience "almost" together. My mother can still read. What a beautiful honoring of a Christian mom who has fallen victim to Alzheimer's Disease! But also for some cause she seems to get some good of what Irene has to say, and is certainly drawn into the pages of "Twilight Meditations." On the page where in fact the author answers the question "What do you look forward to doing in Heaven?" with "I would like to ride horses." Mom responds, "Well We certainly wouldn't want to ride horses." Seeing that I go through the tale of an amazing female and her enduring reference to God when confronted with this terrible disease, it takes me on a journey of love and the challenge of letting go while hanging in. It offers me perspective as I care for my mother. So a lot of what the writer says encourages me out of the depression that descends when we have a particularly bad time. And its lovely artwork, photos and wisdom certainly are a welcome respite in days that cry out for a reminder that "God by no means forgets. Irene's gorgeous quotes can be a steadfast anchor to end up being visited and revisited in the midst of our grief.. This book is beautifully illustrated with her son's photographs and artwork by the talented Irene. Through this publication, I'm reassured that whenever we lose the opportunity to speak, God still speaks to us. Whenever we lose our memory of relationships, God continues to be in relationship around. Even through Irene's inability to communicate her thoughts through discussion, she remembers verses which have sustained her throughout her existence. Her faith is indeed deeply rooted that whenever she's lost storage of the rest, her joy and faith in god, the father shines through. I highly recommend this publication to whoever has aging parents, family, or friends and is coping with Alzheimers or dementia. Despite the fact that we may be suffering with what they are losing or have lost, they could still have pleasure, thoughts, and remembrances they cannot express. Beautiful book expected to become more about her. her pleasure and faith in god, the father shines through I've frequently wondered, if our orderly thoughts and our cognitve functions are taken away, will we still communicate with God? After that it either did not trim completely around the can or more frequently simply kept popping away the can. In fact, she reads every freeway and road sign we move, but doesn't usually understand the content. It opened the first can beautifully. His accounts of her articulated prayers because they decline, her capability to sing when speech is not any longer easy and his very delicate jotting down of her estimates about her Lord and Savior, Jesus, get this to a book that every caregiver or relative will glean spiritual insights into the way the Lord provides promised to never leave or forsake us. Some that especially touched me personally were: "Time marches on - but not without God"" I'm thankful for the recollections He has let me keep""This is just a phase in God's working"And probably the most wonderful feeling to be used of god, the father amid dementia. And for those whom Alzheimer's is merely the leadoff on a nightly news tale, this personal portrait of a lifestyle leading up to and experiencing the illnesses is normally both inspiring and educational.."I would like to be in His program while I'm here." (p.Two of my favorite rates are "Whatever I might think that, it Heaven will always be much better than I believe. Psalm 71:9 "Do not cast me personally off in enough time of later years; Jeff also added feedback about how exactly his mother's disease progressed, adding useful insight to the quotations. Unfortunately, Mrs. In reading it, looking at the artwork and savoring the photos, you obtain another look into a gifted artist and storyteller and the amazing woman, Irene Bjorck, who is his mother. reserve is invaluable to this is and reason for Irene's life. Recommend! This is a story of hope for those who are grieving loved ones afflicted with Alzheimer's. It is a story of a female who for some of her life has stood firm on the rock of salvation and whose words show us she is still held by the hand of God. And yet, it is more than that."How I very long to sit and sing with her in heaven proclaiming praise with outdated hymns like "When We all Get to Heaven' and "In the Garden"This book will encourage and uplift you mainly because you face the "Journey" with your patient or cherished one. I never knew that would end up being what the end of my entire life would involve: such direct service. 20) and "Someday, we will all end up being together, and that'll be the best summary." -August 28, 2016 (p. 118)."I think the book is a gift to any and all. Will not meet advertised performance. Having worked with various forms of dementia (including Alzheimer's) as a nurse, We am so appreciative of this son's loving observances of the hideous disease. Many thanks Jeff Bjorck for this loving tribute to an amazing woman. Not worthy of the money allocated to it and the promoted quality is just not there. Lots of pictures with wording. The reserve is beautiful and incredibly meaningful. I take deep comfort in that. So sorry, this is a review for another item. Beautiful book though Comforting Touching reflections of the Lord in her existence. Great illustrations and photos.. Keeping her center in the Throne Space with GOD, Irene Bjorck not merely gives us a windows through which to peer in to the progression of her dis-ease, but she continually judges us to become listed on her in becoming grateful for even the tiniest of blessings the LORD places along our way day by day whenever we least anticipate it. Bjorck passed away a few months after the publication was published, but what a lovely tribute to her spirit and faith it is! When we got house I purchased a Kindle copy to read immediately.... ever so lovingly and gently." I've known Jeff Bjorck for many years as a pianist/composer as well as a professor at Fuller Theological Seminary, and he provides often said in the last several years that his mom stayed the happiest person he understood. I kept that believed with me as I browse the pages of this wonderful book. This book is a assortment of his mom's terms Jeff has written down over the past several years.
