Don't let your fire burn up... I came aside feeling a lot more valued and precious than the present culture might give some of us credit for.. I provide as gifts to individuals who . This publication opens you up on so many levels, your body, brain and spirit through expression of storytelling, that allows one to embrace being completely alive.. A loving guidebook for every citizen! A wonderful, well-written book for anyone who is considering a transformational transformation or are feeling scared, lonely and abandoned in life by growing older. As we age we collect all sorts of tales, we have lived colorful lives, actually if we don't believe so. The book refers to the aging population because the 'New Elders' with therefore much richness to share with the young adults. We are no longer 'old'. We are who we think we are. I recommend this book for anyone is feels depressed, saddened by growing older. plenty of good suggestions Just to miss the material, lots of good suggestions Two Stars Too much information regarding African tribal respect for elders rather than plenty of application to modern life. It starts with YOU. INJOY! Thoughtful and inspiring I love that the authors connect the functions of elders to history and long term generations. It's a reminder our lives are section of a universal cycle to understand from those before us as we are to pass on our wisdom to those that follow. At the same time, elders don't possess all the answers but the perspective to understand it. lots to take into account For anyone going through the rethinking of life that happens near retirement, that is a great book. It gives many foci where to reflect.Reclaim your life. Thought Provoking To retire or refire? Five Stars A helpful go through for a couple years before you intend on retiring Five Stars Amazing information and an inspirational read for anybody contemplating rating or an encore career. I know I've asked myself that question a few times, but always answered on a superficial level. I love it. An excellent read. What will the future hold? "Claiming YOUR HOUSE at the Fire" assists us ask the right questions as we make an effort to make sense out of and discover meaning in the next half of our lives. It really is complete of insight on how best to do that in a way that makes feeling for a variety of people in all types of circumstances. It was very useful to me as I weigh your options in my own life and work. Idea provoking and conversation starting. Four Stars Good for supporting re-invent oneself and develop a meaningful latter third of existence! To live an inspired life, we have to be inspired. Wish we're able to teach this in schools!.. Claiming your house in the fire begins with the query, who am I? Three Stars Using for an organization I am in. I give as gifts to folks who are retiring. I love it.
