Great Quotes! I have been searching for a reserve of great quotations for the within of greeting cards for some time. My first try was THE BEST Guide to an ideal Card: Prose-sentiments-poems-expressions My best publication ever for how exactly to live with great wisdom For the last 15 years, this has been my head to book for how to live my best life.The Ultimate Guide to an ideal Word: Rates - Titles - Poetry - Tips - Words. I am truly thrilled with this publication of Positive Quotations! That one is. Overall I think the book is very well put together. Naturally, most of the quotes are a lot longer than would fit in a greeting cards, but most seem to be a brief paragraph or less. Neither of the prior two books was quite scholarly plenty of for me. Also reading a few quotes at the same time on a particular topic can provide me great insight and inspiration. To start, the book is pretty big, and each page is filled usually with three columns of rates. great book, he identifies it this was something special for my husband when his copy got ruined. In each section, in addition they continue to breakdown the quotes. For instance is you head to "dread" you will observed it group like "coping with fear" "How dread affects others". It not only includes over 10,000 entries, but those entries are from historical individuals who have shaped our world rather than from the author or a current superstar. The quality of the quotes can be impressive. From figures that go back centuries to present day people. The only real small complaint I've is some quotes are repeated. There's only a little thing that is not a big deal: a few of the quotes are a small odd or the wording is a bit strange, however, not Co fusing to comprehend.. I highly recommend for anyone searching for a book of inspirational quotes. I love it.. This has been a favorite book of mine for quite a while. I've a paperback copy that I was presented with many years ago as a gift. I was so happy I could find a copy that I could have for the Kindle as well, because then it complements me wherever I move. I didn't expect the size nonetheless it is great! This book is HUGE! I give copies of it to numerous people.followed by Just what I wanted This book is just what I wanted. I didn't expect the size nonetheless it is great! This is fantastic! I love the way the author and collaborators . Five Stars amazing number of very positive quotations.. This is fantastic! I love the way the author and collaborators arranged the primary topics with sub topics. For example if a quotation can apply to two different classes.. The book is definitely well divided with each section labeled obviously. But despite this the book continues to be well varied.. A POPULAR!great book, he identifies it daily Three Stars It was a gift
