Nothing new for specialists but great for Mom's Nothing new for specialists but great for Mom's hair ideas to get my little clients that are girls and preteen. Quality paper, images, & This publication is filled with great information and simple ideas you can do at home. Forget about daddy hair Great reserve and how exactly to for single dads. Lots of good basic info however, not many hair do's This is simply not a bad book iteself. great book for preteens great publication for preteens. Beautiful bold colors and useful information parents may use. Not a bad buy, but I find a couple useful designs I can actually use. binding. The instructions are good for the more difficult ones A few "unique" hair suggestions. If you are searching for fundamental how to's then it's a good way to begin. It has some fundamental useful information on how to deal with different hairstyles, from cutting to hair accessories. i bought this publication for my toddler however the hair styles are for older girls and all the styles are targeted at girls with long locks. i still offered it four celebrities because its a neat and incredibly educational book on locks. Fun for girls Our grand daughter loves it. If you are looking for something a lot more creative, then do not get this book. Most of them are simply various adaptations of a similar thing. The instructions are best for the more difficult ones, but I think you can find better books out there. My daughter still loves looking through it, though. She really loved the book Purchased as something special for a little lady who loves to enjoy hairdresser. She really loved the book. Nice Quality & Informative Good purchase for a fresh parent. Nice layout/flow. As a hairstylist I was longing for a publication of suggestions or be inspired but had not been. Some of them are simply fundamental buns, braids, etc. Even more extensive than expected Excellent. I was a bit disappointed because I likely to see a many more hair styles than what the reserve actually offers. Very nice. Five Stars I enjoyed this book. More comprehensive than expected. Nicely published and bound. its a keeper just not for now.
