Life Changing Book I read this about 10 years ago when it was first released. It had been interesting but I place it aside and didn't think about it again until lately. Many adjustments happened in my own life over the past ten years. My dad suffered a long disease and passed. My mom has been ill. I too became ill, I believe to be due to stress. These occasions were definitely life changing. I noticed the book and decided to read it again. I believe I was at a stage in my own life that I could truly appreciate this book even more! I am today reading another book in the series and am applying it each day. I am happier than I have ever been. I highly recommend these books. Will buy it again. Absolutely love the quality of this personal book. Telling myself that I'd like a Ferrari and that I just have to work that much harder to get it. Its so easy to hold, write, it's beautiful and inspiring. It did not say it had been in another language! Our positive loving thoughts and emotions transmit frequencies. Everybody without exception should check it out (sincerely! I produced a smart decision to. Beautiful web pages and the information is timeless. All the best to all of you, who help to make their dreams become a reality. Check it out. What do you have to lose? If you are floundering or struggling, browse this book. I started with an expectation of what I believed the book was about and the design of writing that I should expect. When I originally disagreed with among the authors viewpoint with in the publication and scrutinized another's personal existence through research I was almost prevent reading, but I decided to read on anyway.) for per month, and see what happens. I had found out about regulations of attraction before, but under no circumstances took the time to research what it truly meant. As the reserve unraveled and began to reveal "The Secret," and how exactly to apply it into my life immediately, I allowed myself to most probably in receiving whatever insight I possibly could to be able to help me overcome several difficulties in my own life and achieve an improved quality of life overall. By the middle of the publication I thought we would practice a few of the techniques which were briefly described through the text just to give it a try. For the past 3 weeks I've had discomfort in the center of my back again. I had even recently gone to a chiropractor to help alleviate my symptoms, which just worked temporarily. As soon as I attempted the technique of closing my eye, clearly my mind, and speaking affirmations of self-confidence and healing something changed. I did not realize the pain in the center of my pain, that I had been experiencing for weeks, was gone until about 5-10 minutes afterwards when I stopped to stretch. I am not a blogger, I do not receive free books, or any type of compensation for this or any review I ever write. I also am usually someone to dispel instant promises of miraculous results occurring just from reading a text or saying a chant, so when I tell you my discomfort left and has not been back again since I am shocked in a way. I am keeping it. From that instant I figured if it's that easy then I wonder what life will end up like once I apply it to every area of my life! This is a lifestyle changing book and I understand why it has marketed untold thousands of copies all over the world. It actually works in the event that you apply and believe. This is a browse and follow book-you must live it, experience it and also have faith! Life changing An incredible eye opening reserve I would recommend to every single person to read. Not English Not in English. Loved It I wish I had read The Secret much previous in my life. An absolute need to! The idea of the Laws of Attraction makes sense to me. I wish this simple concept have been presented to me in this manner when I was youthful. It sounded a little hokey, in all honesty, but then I started reading it and that transformed. What exactly are you transmitting. I hope it is not too late to try and apply this philosophy. This book makes you really look at the way you see the globe and your thoughts about it. You really can change everything. When I first begun to read this publication I honestly thought it was a crock and a waste of my time and money. Seriously,

you'll be amazed! DID not think i'd like it and i do i find myself staying on tract and being happier can't say i was happy with this because we thought it had been a book and We am Christian and I believe Christ wants us to better oursselves and this is basically to greatly help get you into a better place mentally and physically and spiritually. I still am secretly wondering once the pain will reappear, but by the continuation of applying regulations I highly doubt it will. You can not just sit on your couch all day wishing for a Ferrari- that's emotion, wishing aside for something. WOW it certainly does help. You unquestionably want this!! The reserve and the knowledge is well backed by the "The Secret team of professionals" listed on pages 185-197. It really is absolutely beautiful, includes a page every day for what you are grateful for the present time and everything you are grateful for in the future for manifesting. Also offers a magnetic close and can be leather bound. The web pages are gorgeous! I nearly don't want to create in it ~ I will be buying another one when I fill this one! Keep an open mind Very helpful information for anybody at any point in their life, especially if you're trying to sort out a rough time. Nevertheless, it will take practice, so you should highlight/make notes and continue steadily to refer back to the book to get the most out of it. Each giving info in a nutshell, clear, concise, single-paragraph suggestions that make this book ideal for pre-sleep focusing. Useless It had been not in English Great! The thing I really did not like about this book is that it attracts emotion not reason and logic. I saw a review and the girl slammed this and i read thesecond time and it says to have got gratitude to shift your time and you may see miracles take place commit to writting down 100 items a day. In for that positive attitude can certainly help to be more efficient at obtaining your goals. But I can see how the information provided in the reserve could work. Positive thinking. It includes a magnet, reddish colored bookmark, inspirational estimates. You truly need to work at what you are trying to achieve. Love it!!! Appreciate it! And it can help to sleep better :)I also picked a particular pen, and right now the whole process turns into sacred.By the end of the book and my very own personal testament, I was hooked. you will constantly need to keep the Key near your heart. And then you would do it forever.. Great book I watched the movie and I had to have the publication for a reference also to place on my book shelf. May the Secret bring you love and joy for your entire existence-Rhonda Byrne This book holds priceless clear to see biblical information that will help you create a better "YOU", an improved life. After previewing The Power and The Magic, I intend to read those two as well. The book explains the law of attraction is love. Love is a means to all ends. I am a deep believer in wonderful power of love and gratitude. What you think and feel, you will attract, once we are "you are just like a human powerful transmission tower" (page 25) that transmit frequencies of thoughts and feelings. Really enables you to look at the method that you see the world When I first found out about this, I wasn't sure what things to think. If you complain and point fingertips, you will attract only more things to your life to complain about. Great thinking attracts only good people and encounters into our lives. Absolutely the very best gratitude journal about. The are doctors, physicist, authors, lecturers, clergy, etc.It could be pretty repetitive but in my opinion that is clearly a good thing to really beat in the info. Nice! This has easily become one of my all-time favorite books and I recommend it! Just try it. What do you have to lose? When I really do my night time gratitude exercises, Personally i think like I am composing the most important chart of my entire life. I am 58 years old and have kept negative thoughts in my mind my entire life!! I can truthfully say it has made a significant impact on just how I live my entire life. Everyone needs this reserve in their lives.
