. This replacement provides gotten wet and organized, therefore the first one will need to have simply been a lemon. It got wet, the plastic material pulled back again from the paper and it was just about ruined. Very simplistic yet detailed and great for beginners like myself. Good Customer Service I actually took this along on a wilderness canoe trip. This was perfect for my handbag and I understand if I ever need it, it will be in my own bag and I'm going to be in a position to reference it with little effort. When I arrived home, i requested a replacement and it arrived within two times. I'm a light "doomsday prepper" with mainly a handbag and minimal resources to get me started, should I ever need to. My daughters experienced no difficulty interpreting and performing. Good tips! Great product, waterproof, print is usually high contrast. and huge enough to be seen in low light. Survival tips are solid and an easy task to follow. The content is sufficient to be helpful, nevertheless, you can't expect anything in-depth in a small brochure. Great Guide, everyone must have this in their bug out bag! Got this mainly because a joke for my son after he was flooded in in a deer lease with little meals. He laughed, but keeps it in his pickup in the event. Great for what I needed A great, super light weight and durable info packet... handy ideas these pocket manuals are laminated for durability an easy task to stow in a it has some handy tips these pocket guides are laminated for longevity an easy task to stow in a backpack Four Stars Good Great for my hiking pack. Great for my walking pack. I love the fact that they're laminated. Four Stars great concise guide to toss into your entire day pack.
