Have to upgrade to the new version, 2016. I did not want to pay the entire \$50 for this manual as AHA has changed their standards and can soon issue new materials.. WOULD RECOMMEND FOR ANYBODY TAKING CPR THROUGH AMERICAN RED CROSS.... I was very happy to find a new instructor manual for such an excellent price. The book was in fair condition, could have liked it to have been shipped in a more timely manner. Great buy! Good Book it good book items and make a understand to read.. a lot of information..overall he loved it.. It arrived 1 day later on than was expected..extremely informative! Four Stars Had a comparable information but it is the old version.Great resource for college students taking CPR classes. Great :) The item is fantastic random brownish substance on the back cover but besides that great It came in good condition and met my expectations. Four Stars Good book it had been used for a college program for my son.. I was very happy to locate a new instructor manual for such a .. Three Stars I liked it, it had been brand new but it item didn't have all of the chapters. Five Stars Needed for school - good textbook. It came in good shape and met my expectations The book is used and I knew this before placing my order.
